Sundays (Mar. 14th - May 30th) 9 to 5 P. M.*

SAW MILL RIVER PARKWAY
EASTVIEW, NEW YORK

PLEASANTVILLE 889
TARRYTOWN 4-2620

1898-1948

FIFTY YEARS AGO, in 1898—during the era of the Gibson Girl, McKinley, vigorous old "T. R." and Henry Ford's horseless carriage—Rosedale Nurseries became established on Saw Mill River Road, one and one-quarter miles north of Eastview, a station on the Putnam Division of the New York Central Railroad.

The Gibson Girl returns this year in her influence on m'lady's fashions; any men as prominent as McKinley and "Teddy" Roosevelt cannot fail to leave their marks on the trend of our country; and the early horseless carriage and the old electrics are replaced by the newest in ground and air travel.

Even the railroad bed of the Putnam Division runs a new course now on the east side of Rockefeller Hill, although the station, Eastview, remains to serve as our freight station and Post Office.

Through all these changes Rosedale Nurseries carries along the ideals of its early days and adapts itself to the winds of time and progress without sacrifice of what has proven good and substantial.

We look back over the years in order to judge how we may be of better service in the future to those who come within our gates. By studying our virtues and our mistakes we hope to arrive at a pattern which will give you what is of most lasting value to you.

ABELIA GRANDIFLORA

ABELIA

Abelia grandiflora (*Glossy Abelia*). A splendid half evergreen shrub bearing dainty, bell-shaped pink flowers from July until frost. The glossy foliage will persist all Winter in a protected spot.
 18 to 24 in. \$1.75 | 2 to 3 ft. \$2.50
 3 to 4 ft. \$3.50

AZALEAS

Azalea amoena (*Evergreen*). Small, boxlike leaves on a neat, compact plant of rounded form. Leaves warm bronze hue in Winter. Covered with rosy purple flowers in Spring. Very hardy.

Large Specimens Only

4½ to 5 ft. spread. \$35.00 each
 5 to 6 ft. spread. 45.00 each

Azalea hinodegiri (*Evergreen*). Probably the best of the Evergreen Azaleas for color, foliage and form. A low, compact plant with handsome, waxy foliage which turns bronze in Winter. The flowers are clear fine red, borne in great profusion in May. Splendid for facing Laurel and Rhododendron as mass planting. This stock is thick and compact, and loaded with flower buds.

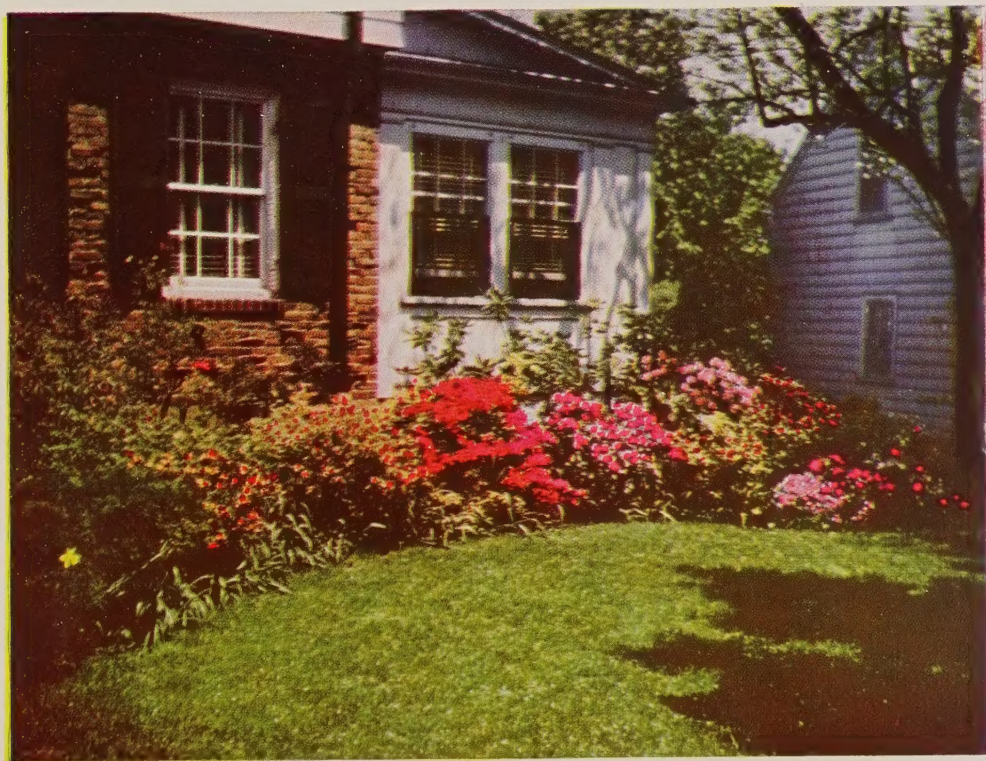

10 to 12 in. spread. \$2.50 | 18 to 24 in. spread. \$7.50
 12 to 15 in. spread. 4.00 | 3½ to 4 ft. spread. 25.00
 15 to 18 in. spread. 5.00 | 4 to 4½ ft. spread. 30.00
 4½ to 5 ft. spread. \$35.00

BERBERIS JULIANAE

ILEX OPACA

COLORFUL PLANTING OF EVERGREEN SHRUBS

AZALEA INDICA ALBA

EVERGREEN SHRUBS

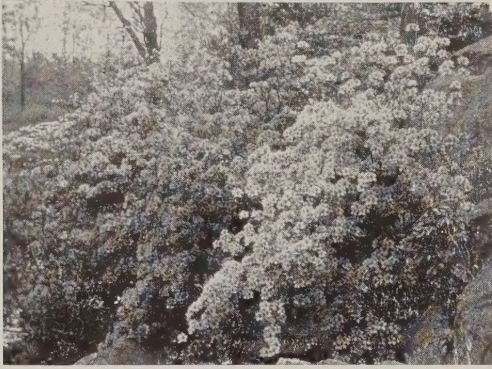

for Year 'round Beauty

There is no class of plants which gives more satisfaction than Broadleaved Evergreens, for they are beautiful at all seasons of the year. Not only does this class include the most gorgeous flowering plants, but the foliage of some in Winter is even more beautiful than in Summer. This is especially true of the Leucothoe, whose leaves take on the finest shades of red, from bronze to intense scarlet. We are especially well supplied with these native American plants in both large and small sizes.

Increasing numbers of evergreen shrubs are used each year to provide colorful as well as evergreen effects.

DECIDUOUS AZALEAS

AZALEAS—Continued

Azalea hinomayo (*Half Evergreen*). Similar to Hinodegiri except for color which is a clear soft pink. The habit of growth is somewhat more irregular than Hinodegiri.
18 to 24 in. spread.....\$6.00
2 to 2½ ft. spread.....7.50

Azalea indica alba (*Half Evergreen*). Also called Snow Azalea. A fine combination with Hinodegiri, as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white.
12 to 15 in....\$3.75 | 18 to 24 in....\$6.00
15 to 18 in....4.75 | 2 to 2½ ft....10.00
2½ to 3 ft.....\$12.00

Azalea J. T. Lovett. A beautiful, very low-growing, completely evergreen Azalea. The single, bright pink flowers are larger and appear about a month later than A. hinodegiri. Very profuse bloomer.
15 to 18 in.....\$5.00

Azalea kaempferi (*Torch Azalea*). Half Evergreen. Not completely evergreen, but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon pink in varying shades.
15 to 18 in....\$4.00 | 2 to 2½ ft....\$6.00
18 to 24 in....5.00 | 2½ to 3 ft....8.50
3 to 3½ ft.....\$12.00

Azalea poukhanense (*Half Evergreen*). A broad plant of finest form with extremely large, lavender-blue, sweetly-scented blooms. Growth is modest and it is positively hardy, almost never losing a flower bud. We cannot recommend Azalea poukhanense too highly. Our stock is large and well grown.
18 to 24 in....\$5.00 | 2½ to 3 ft....\$10.00
2 to 2½ ft....6.00 | 3 to 3½ ft....15.00

For convenience we list here other varieties of Azaleas which are not evergreen but which are just as beautiful and useful. They are slightly more hardy than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendron with the lighter, more delicate, deciduous foliage.

Azalea altaclarensis. This is the finest yellow Azalea in our experience. Single, deep orange flowers changing to bright yellow, in large trusses. Hardy, good grower.
15 to 18 in.....\$4.00

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms late usually mid-June, and the blooms have a delightful fragrance. A most desirable variety for mass plantings of native material.
15 to 18 in....\$2.75 | 2 to 2½ ft....\$5.00
18 to 24 in....4.25 | 2½ to 3 ft....7.50
3 to 4 ft. heavy....\$10.00

Azalea calendulacea (*Flame Azalea*). A brilliant orange and yellow flowering native shrub. Tall but slow growing, free flowering.
15 to 18 in....\$2.75 | 2½ to 3 ft....\$6.00
18 to 24 in....3.75 | 3 to 4 ft....7.50
2 to 2½ ft....4.50 | 4 to 5 ft....9.00

Azalea, Hardy Ghent. They are absolutely hardy and rugged even in cold climates. Their foliage, even though deciduous, is handsome and especially valuable for its Autumn colors. Their bloom period follows Azalea mollis—usually May 15 to June 15. Their captivating fragrance is akin to Honeysuckle, as a base with many other perfumed scents blended in.
15 to 18 in....\$3.75 | 3 to 4 ft....\$10.00

Azalea mollis Hybrids (*Chinese Azaleas*). A mass of large, bell-shaped flowers delicately shaded in orange and red tones on a low, compact shrub. The flowers, which appear before the leaves develop, are probably the largest of all the Azaleas and the profusion of blooms is unequalled. Likes plenty of sun and develops slowly.
18 to 24 in.....\$4.50

Azalea mucronulata. A most worthwhile variety for planting in front of Forsythia. Blooms at same time and the color combination is most striking. Flowers are lavender-pink.
18 to 24 in.....\$3.50

Azalea nudiflora (*Pinxterbloom*). Wild Honeysuckle. This lovely native is known to all who have tramped the woodlands in May. Fragrant pink.
18 to 24 in....\$2.75 | 2 to 3 ft....\$4.00
3 to 4 ft.....\$6.00

Azalea vaseyi (*Pinkshell Azalea*). Shell-pink flowers in May. Blossoms cover the entire plant and make a striking picture before foliage has developed. A most lovely type.
18 to 24 in....\$4.50 | 2½ to 3 ft. hvy.\$7.50
2 to 2½ ft....6.00 | 3 to 4 ft. hvy.15.00

Azalea viscosa (*Swamp Azalea*). A slender, upright Azalea with heavily scented pink or white flowers in July well after the leaves appear. Thrives in moist places from Maine to South Carolina and attains 4 to 8 ft. in height.
2 to 3 ft.....\$4.50 | 4 to 5 ft.....\$7.50
3 to 4 ft.....6.00 | 5 to 6 ft.....10.00

BERBERIS

B. julianae (*Wintergreen Barberry*). Evergreen. Yellow flowers and purple fruit. Good ornamental for border, foundation or hedge.
15 to 18 in....\$3.50 | 18 to 24 in....\$4.50
2 to 2½ ft.....\$6.00

COTONEASTER

The large family of Cotoneasters has many members of high value for landscape plantings. Cotoneasters grown in an open situation generally prove to be hardy throughout northern United States. They vary greatly in habit and attractiveness and rely upon their brilliantly colored fruit, more than floral beauty, for decorative effect. They do not transplant as readily as some shrubs and must be carefully handled during the transplanting operation. The generally interesting branching habit, both the low sprawly types and those with arching branches are decorative all year.

C. applanata. A low spreading form similar to horizontalis. More compact grower with slightly more arching branches. Unexcelled rock garden variety.
10 to 12 in....\$2.25 | 12 to 15 in....\$2.75

C. divaricata. A broadly spreading shrub which has tiny, glossy leaves interspersed with scarlet berries in Autumn. Vigorous grower.
2 to 3 ft....\$2.50 | 3 to 4 ft....\$4.00
A few large specimens priced on selection

C. francheti. Upright, dense shrub with wide spreading branches. Small pink flowers in June with a tremendous crop of orange berries in September; foliage grayish green.
15 to 18 in....\$2.50 | 18 to 24 in....\$3.50
2 to 3 ft.....\$5.00

C. horizontalis. One of the most effective fruiting shrubs for the rockery. Its low branches, almost horizontal, bear a profusion of bright red berries.
18 to 24 in.....\$2.75

A ROSEDALE PLANTING OF RHODODENDRONS, LAUREL AND PIERIS

BERRIES OF COTONEASTER

DAPHNE

D. cneorum (*Rose Daphne*). Rose Daphne is a dainty little bush 1 to 2 ft. high with gray green foliage, each shoot tipped with clusters of clear rose pink flowers in April and May and again in Autumn. The fragrance is delightful and so strong a few plants will scent a wide area. Likes plenty of lime in the soil. Must have full sun and loose soil which never becomes caked.
8 to 10 in. . . . \$1.75 | 12 to 15 in. . . . \$2.50
15 to 18 in. . . . \$3.50

D. Somerset (Plant patent No. 315). A recent and worth-while addition to the Daphne family. Foliage is rich, dark green, much like the ever-popular Boxwood. The flowers are bluish-pink, star-shaped and in clusters 6 to 8 in. long. Delightfully fragrant like *D. cneorum* and hardier. Evergreen in sections where temperatures are moderate. Of medium height—good for underplanting the shrub border.
12 to 15 in. . . . \$1.00 | 15 to 18 in. . . . \$1.50

ILEX • The Hollies

There is something startling about the sight of a full-grown Holly tree aglow with red berries. Our imaginations are stirred by this familiar species not only because of its association with Christmas spirit and cheer, but by its crisp, dominant, year-round personality. Only one of this group looks anything like the tree Christmas Holly. They differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

I. bullata (*Boxleaf Holly*). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high, with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather.
15 to 18 in. . . . \$4.75 | 18 to 24 in. . . . \$6.00
2½ to 3 ft. . . . \$9.00

I. crenata. A rapid growing, dense evergreen bush with deep green, Boxwood-like foliage. A permanent plant of real character.
3 to 3½ ft. . . . \$9.00 | 4 to 5 ft. . . . \$12.00
5 to 6 ft. heavy. . . \$15.00 to \$20.00

I. glabra (*Inkberry*). A bushy, upright growing very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in the Fall. Useful for shady and moist locations.
15 to 18 in. . . . \$2.50 | 2 to 2½ ft. . . . \$4.75
18 to 24 in. . . . 3.50 | 2½ to 3 ft. . . . 6.50

I. opaca (*American Holly*). The well known Christmas Holly, with red berries. Grows to a large tree but may be sheared to a dense bush. Both male and female plants should be planted. We believe we have one of the finest collections of American Holly available and all plants have been trained and transplanted frequently.
18 to 24 in. . . . \$5.00 | 3 to 4 ft. . . . \$8.50
2 to 3 ft. . . . 6.50 | 5 to 6 ft. . . . 15.00
6 to 7 ft. . . . \$25.00 to \$35.00
7 to 8 ft. . . . 35.00 to 45.00

I. rotundifolia (*Roundleaf Holly*). Compact, evergreen shrub with shiny green foliage and black berries. An outstanding variety which is real hardy in Westchester.
18 to 24 in. . . . \$6.00 | 2 to 2½ ft. . . . \$7.50
2½ to 3 ft. . . . \$9.00

KALMIA

Mountain Laurel

K. latifolia (*Mountain Laurel*). The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality. Most effective in group planting and must have acid soil.
18 to 24 in. . . . \$3.50 | 2½ to 3 ft. . . . \$6.00
2 to 2½ ft. . . . 4.75 | 3 to 4 ft. . . . 9.00

LEUCOTHOE

L. catesbaei (*Drooping Leucothoe*). Most beautiful dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. Prices are low for bushy plants. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks inside the home and the cutting improves the plant.
15 to 18 in. . . . \$2.50 | 18 to 24 in. . . . \$4.00

MAHONIA

M. aquifolia (*Oregon Grape*). Beautiful at all seasons of the year; in Winter the prickly, shiny, purplish leaves turn to the finest bronze and crimson. Especially suitable if used with evergreen Barberry, and as filler where a well-foliaged plant is needed to complete the landscape planting.
18 to 24 in. . . . \$4.50

PIERIS

P. japonica (*Andromeda*). Hardy Laurel-like leafed plant of unequalled value in a broadleaf planting. Glossy leaves of various shades with lovely sprays of Lily-of-the-valley-like clusters of white flowers in very early Spring.
15 to 18 in. . . . \$4.00 | 2 to 2½ ft. . . . \$7.50
18 to 24 in. . . . 5.00 | 2½ to 3 ft. . . . 9.00

P. floribunda (*American Andromeda*). Foliage similar in size and pattern to *P. japonica* but flowers differ, growing in showy, upright clusters rather than drooping. Very much in demand for its habit of lateral growth into a handsome mound of rich green retained throughout the Winter.
12 to 15 in. . . . \$2.75 | 15 to 18 in. . . . \$4.00
18 to 24 in. . . . \$5.50

PYRACANTHA

P. coccinea lalandi (*Firethorn*). Semi-evergreen. Strong, slender branches rising from the ground develop stubby side growths upon which are hung the numerous orange red berries. Amazingly beautiful in the Fall, especially when planted against a gray stone background.
5 in. pots. . . . \$2.50 | 4 to 5 ft. . . . \$7.50

PIERIS JAPONICA

RHODODENDRONS

With beautiful blossoms in the Spring and rich green foliage during the Winter months, Rhododendrons are indispensable in any planting. Little care is needed after the plants are once established. They succeed in any light acid soil; enjoy Summer shade and dislike "wet feet". We will give you full instructions for planting and cultural care.

R. carolinianum. A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft rose pink bloom. A great favorite.

15 to 18 in. . . . \$3.25	2½ to 3 ft. . . . \$8.00
18 to 24 in. . . . 5.00	3 to 4 ft. . . . 12.00
2 to 2½ ft. . . . 6.50	4 to 5 ft. \$20.00-30.00

R. catawbiense. A native, free-flowering variety, the parent of most hybrids. Will grow in any soil that is free from lime, is very hardy, and needs little attention. Large, round clusters of deep rosy purple flowers appearing in May or June, just after *R. carolinianum*. Well budded plants.

Bushy clumps:	2½ to 3 ft. . . . \$7.50
12 to 18 in. . . . \$3.75	3 to 3½ ft. . . . 9.00
18 to 24 in. . . . 4.25	4 to 5 ft. . . . 20.00
2 to 2½ ft. . . . 5.00	5 to 6 ft. . . . 35.00

R. maximum (*Rosebay*). Our native Rhododendron, with white and light pink flowers. Nursery-grown plants.

18 to 24 in. . . . \$3.00	3 to 3½ ft. . . . \$7.50
2 to 3 ft. . . . 5.00	3½ to 4 ft. . . . 9.00
4 to 5 ft. . . . \$12.00 to 15.00	
5 to 6 ft. . . . 15.00 to 20.00	
6 to 7 ft. . . . 25.00 to 30.00	

Special for naturalizing

12 to 24 in. . . . \$1.75 each, \$150.00 per 100

RHODODENDRON HYBRIDS

These are the grafted named Rhododendrons which produce such gorgeous displays of color in June.

We offer only varieties hardy in this section. Their foliage is somewhat better than native types and they almost never fail to set bloom buds.

Hybrid Rhododendrons are so scarce this year that we can accept orders at the nursery only since we do not have all sizes in all varieties.

15 to 18 in. . . . \$6.50	2 to 2½ ft. . . . \$12.50
18 to 24 in. . . . 8.00	2½ to 3 ft. . . . 17.50
3 to 3½ ft. . . . \$20.00	

Larger specimens priced on selection

Varieties available:

Caractacus. Rich purplish crimson—a gorgeous, well-known variety.

Catawbiense album. Blush, changing to white. Large bloom.

Catawbiense Boursault. Brilliant purple. Exceptionally sturdy and well-shaped.

Catawbiense grandiflorum. Violet-rose, a real Rhododendron color. Exceptionally vigorous.

Dr. H. C. Dresselhuys. Glittering crimson—one of the best reds. Blooms of unusual size.

Edward S. Rand. Rich scarlet with dark eye. Unusual.

Everestianum. Delicate lilac-pink with crisp edges. Magnificent compact habit. Very free flowering.

F. D. Godman. Rich red flecked with deeper red.

Ignatius Sargent. Light, clear red, exceptionally large trusses.

Lee's Dark Purple. Deep, rich purple bloom.

Mrs. C. S. Sargent. A hardy deep rose-pink of compact habit.

Parsons grandiflorum. Rosy purple.

President Lincoln. Distinct lavender. Large growing; full flower.

Purpureum elegans. Deep lavender, large flower clusters. An excellent variety.

Roseum elegans. Brilliant rose-pink. Vigorous and hardy. Handsome foliage. An outstanding variety.

Roseum superbum. Rose-pink. Late flowering. Especially handsome.

HYBRID RHODODENDRONS WITH PIERIS IN FOREGROUND

MOUNTAIN LAUREL (Kalmia)

MAHONIA

Broadleaved Evergreens

offer more advantages than any other types of plants—gorgeous color in Spring and early Summer, green foliage all year and everchanging shades of bronze, red and green during the Autumn. In addition many of the plants in this class are very dwarf and hence will not quickly overgrow. We suggest planting in mass for foundation, border or screen. Rosedale stock of **Broadleaved Evergreens** is most extensive and these plants are acclimated to Westchester conditions.

PYRACANTHA

BROADLEAVED EVERGREENS are easy to grow and need little care and attention.

HYBRID RHODODENDRON ROSEUM SUPERBUM

EVERGREENS

Rosedale Evergreens are famous for vigor, shape and quality of balling. These are your assurances of safe, easy transplanting. They should be seen to be appreciated and our healthy blocks of Evergreens visible from Saw Mill River Parkway have brought in many a new customer. Personal selection in the rows is welcomed and we believe we can be of more help to you in your selection here at the nursery than in any other way.

A combination of Evergreens and Evergreen Shrubs will produce an all-year planting of unsurpassed beauty. The variety of color formation available in Evergreens is not only extensive but almost unlimited.

ABIES • Fir

Homolepis (*Nikko Fir*). Hardy, beautiful Fir from the Orient; dark green needles silvery on underside. A limited number of specimens available from 7 to 12 feet, priced on selection

CHAMAECYPARIS • Retinospora

These thrive best in moist soils and situations not too much exposed to wintery gales. They are generally rapid growing types and should receive frequent shearing to keep them thick and attractive.

Obtusa nana compacta (*Dwarf Hinoki Cypress*). Very dwarf, dark green, irregular foliage. Extremely interesting plant for rockwork.

12 to 15 in. \$4.75 | 15 to 18 in. \$6.00 | 18 to 24 in. \$7.50

Pisifera. Quick-growing, feathery evergreen. Attains large size and grows bushy and thick. Useful for screen.

4½ to 5 ft. \$7.50 | 5 to 5½ ft. \$9.00

Pisifera aurea. A beautiful golden form with same delicate foliage as Pisifera.

3½ to 4 ft. \$6.00 | 4 to 4½ ft. \$7.50

Plumosa (*Plume Cypress*). Light green, soft, feathery, plume-like foliage. Graceful habit.

18 to 24 in. \$2.75 | 3 to 4 ft. \$7.50
2 to 3 ft. 3.50 | 4 to 5 ft. 9.00

Plumosa aurea (*Golden Plume Cypress*). Similar to Plumosa listed above except that the tips of growth are a golden color, giving the entire plant an aureate cast.

18 to 24 in. \$2.75 | 3½ to 4 ft. \$7.50
2 to 3 ft. 3.50 | 4 to 4½ ft. 9.00

Squarrosa (*Moss Cypress*). A handsome, glaucous tree of striking appearance and color. Our strain is especially bright in color. An unusual gray-blue.

2 to 3 ft. \$5.00 | 3 to 4 ft. \$7.50

JUNIPERUS • Juniper

All the Junipers are valuable ornamental plants—the upright species as single specimens or in groups and the low forms well adapted for rockery, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

Chinensis columnaris. Fast growing, slender tapering spire. Best substitute for our native Cedar. Hardy, light green, effective Evergreen.

4 to 4½ ft. \$6.00 | 4½ to 5 ft. \$7.50 | 5 to 6 ft. \$9.00

Chinensis pfitzeriana (*Pfitzer's Spreading Juniper*). A handsome spreading form, slightly larger than most other spreading types. It has gray-green, plume-like foliage and is extremely useful as a filler in foundation or border planting. Hardy and indifferent to drought.

18 to 24 in. \$4.50 | 2½ to 3 ft. \$7.50 | 3½ to 4 ft. \$12.00
2 to 2½ ft. 6.00 | 3 to 3½ ft. 10.00 | 4 to 5 ft. 15.00

Chinensis sargentii. A low, trailing form with deep green foliage. Best Juniper for rock gardens.

15 to 18 in. \$5.00 | 18 to 24 in. \$7.50

Communis depressa plumosa. A dwarf low-spreading form with plummy foliage fanning out from the center. This Juniper offers the most interesting color changes of all the Junipers—green in the Spring; gray-green in the Summer changing to myriads of heather tones in the Winter.

15 to 18 in. \$3.50

18 to 24 in. 4.50

2 to 2½ ft. 6.00

GOLDEN BIOTA (*Thuja orientalis*)

SILVER CEDAR
(*Juniperus burki*)

WHITE PINE (*Pinus strobus*)

GREEK JUNIPER
(*Juniperus excelsa stricta*)

PFITZER'S JUNIPER (*Juniperus pfitzeriana*)

SILVER PFITZER JUNIPER (*Juniperus glauca hetzi*)

KETELEER'S JUNIPER (*Juniperus virginiana keteleeri*)

JUNIPERUS—Continued

Excelsa stricta (*Greek Juniper*). Slow-growing and of upright, columnar habit. The restful gray-green foliage makes it additionally useful as a color accent.

15 to 18 in.	\$2.75
18 to 24 in.	3.50
2 to 2½ ft.	5.00
2½ to 3 ft.	7.50
3 to 4 ft.	9.00

JUNIPERUS—Continued

Glauca hetzi (*Silver Pfitzer Juniper*). A spreading type, decidedly blue, rapid in growth but stands shearing well. May be considered for both formal and informal plantings.

2½ to 3 ft.	\$7.50
-------------	--------

Hibernica (*Irish Juniper*). A narrow, columnar, blue green type. Attains about 7 to 8 ft. in height and is a great favorite for accent points in the garden.

2 to 2½ ft.	\$3.50
2½ to 3 ft.	5.00
3 to 3½ ft.	6.00
3½ to 4 ft.	7.50

Horizontalis glauca (*Blue Creeping Juniper*). A blue-green plant of irregular habit, which adapts itself to planting over outcropping rocks. Very desirable, creeping type.

18 to 24 in.	\$4.00
--------------	--------

Virginiana burki. A distinct, silver Cedar worthy of more attention. Uniform, upright growth of soft foliage.

4 to 5 ft.	\$9.00
5 to 6 ft.	12.00

Virginiana cannarti. An aristocrat of Cedars. Upright, blackest green tree, bearing quantities of the most ornamental blue berries.

4 to 5 ft.	\$9.00
5 to 6 ft.	12.00

Virginiana keteleeri (*Keteleer Juniper*). Named for a landscape architect in Paris. This comparatively new variety is never attacked by aphid or blight. It grows in pyramidal form and is of very pleasing, light green color which it maintains during Winter.

3 to 3½ ft.	\$5.50
3½ to 4 ft.	7.50
4 to 5 ft.	9.00
5 to 6 ft.	12.00

PICEA • Spruce

No group of Evergreens is more widely used in landscape work than the Spruces and many of them are among the most showy and rapid growing of their class. Spruces will grow in almost any kind of moderately moist soil and are easily transplanted.

Recommended for lawn specimens, screen, or border.

Canadensis (*White Spruce*). A tall, compact tree of rapid growth with blue-green foliage. Very hardy. Fine for screens, windbreaks or as a specimen.

4 to 5 ft.	\$9.00
5 to 6 ft.	12.00

Excelsa (*Norway Spruce*). Rapid growing Christmas tree type attaining great size. Useful for windbreak or individual specimen.

2 to 3 ft.	\$4.50
3 to 4 ft.	5.50
4 to 5 ft.	8.00

Glauca albertiana conica (*Dwarf Alberta Spruce*). A dwarf form of dense, narrow, conical habit, with thin, slender leaves.

15 to 18 in.	\$4.00
18 to 24 in.	5.50

Omorika (*Serbian Spruce*). Dense pyramid, attaining great size slowly. Needles are dark green above and silvery underneath and branches sweep out in arcs. Hardy and reliable.

2 to 3 ft.	\$6.00
3 to 4 ft.	12.00

Pungens glauca (*Colorado Blue Spruce*). A selected form of the Colorado Blue Spruce—dense, steel blue foliage of even color. A favorite.

2 to 3 ft.	\$10.00
------------	---------

Howard Taylor inspecting Rosedale's stock

Fifty Years of Service

IN 1898, Rosedale Nurseries were established by Mr. Samuel G. Harris of Tarrytown, a man of broad farm experience in addition to college and landscape training. The practical application of his knowledge is seen at once in his choice of location. What could be better than the tremendously fertile river bottom land for producing healthy, thriving nursery stock? For the Saw Mill River was once, many eons ago, a river of size cutting its way down the valley.

So Rosedale Nurseries became situated on Saw Mill River Road—where there is still an entrance for those wishing to avoid the Parkway.

The site having been chosen wisely, Mr. Harris set himself to establishing his business policies which have now become Rosedale traditions: clean, healthy stock, high quality material, personal attention to each customer and service in the way of landscape advice.

During the ensuing 27 years, Rosedale progressed steadily, conservatively.

It was natural, then, for Mr. Harris, advanced in years, to look about for the right person to carry on the business and traditions of Rosedale Nurseries. So it is with no surprise that we read of his announcement in the 1931 catalog of the nurseries:

A PERSONAL LETTER FROM THE FOUNDER

"Another prosperous year, the 32nd at Rosedale has passed, excelled in amount of sales by only one other, that of 1929, this notwithstanding the general depression in business and the severest drought in experience.

"Thanking those whose patronage has helped to make Rosedale a success, I regret that it becomes necessary to forego the pleasure of continued personal services to my horticultural friends.

"I am pleased, however, that I am able to recommend to our large clientele, Mr. Howard C. Taylor, who has been my able assistant during the past six years. He is capable, efficient and dependable, and I bespeak for Rosedale Nurseries your best interests under the management of Mr. Taylor, whose intention is to carry out the same policies for which Rosedale enjoys a high reputation."

S. G. HARRIS

Mr. Taylor was exceptionally well fitted to carry on. Having spent his boyhood years on his family's farm he had a background of practical knowledge of planting, cultivating and habits of plant growth. This was rounded out by his years of study at Alfred University while he learned the latest in scientific agriculture. This "know-how" coupled with best business practices, and a youthful vigor, he brought to Rosedale.

So after six years of apprenticeship at Rosedale, we find Mr. Taylor the owner, with a thorough working knowledge guided by a steady integrity and desire to not only carry on the high business standards to which Rosedale's customers had become accustomed but to add to the services offered.

On the Saw Mill River Parkway

PINUS • Pine

The Pines are essentially inhabitants of poor, sandy soils and dry situations. Their stout root systems enable them to seek scanty water supplies where other species find it difficult, and they thrive in any good soil.

Cembra (*Swiss Stone Pine*). Hardy dark green foliage. Tree symmetrical, slow growing and compact. A very handsome lawn specimen narrowly pyramidal.
3 to 4 ft.\$10.00
4 to 5 ft. 12.00

Montana mugho (*Dwarf Mugho Pine*). Low mounded Pine with short, stubby needles. Slow in growth, attaining greater spread than height.
15 to 18 in.\$4.50
3 to 3½ ft. 10.00
3½ to 4 ft. 12.00

Nigra austriaca (*Austrian or Black Pine*). This flourishes near the seacoast and on high, bleak hills or in cities where smoke and dust would prohibit the use of many other Evergreens.
2 to 3 ft.\$6.50

Parviflora glauca (*Oriental White Pine*). A hardy tree of irregular growth with bluish green needles in tufts at the ends of branches. Very picturesque.
4 to 5 ft.\$7.50
5 to 6 ft. 9.00

Peuce (*Macedonian Pine*). A very ornamental hardy Pine of regular, dense habit and slow growth. Needles rich silvery green about 3 inches long. Resembles Swiss Stone Pine.
3 to 4 ft.\$6.00
4 to 5 ft. 9.00
5 to 6 ft. 12.00

Sylvestris (*Scotch Pine*). A Pine of picturesque, windswept beauty and dense, blue-green foliage. Thrives in windy, dry locations.
4 to 5 ft.\$8.50
5 to 6 ft. 12.00

Strobus (*White or Weymouth Pine*). This is beautiful in every stage of its growth, from a seedling to a stately tree of 150 ft. No other evergreen fulfills so well the requirements for rapid growth and none transplants more easily.

2 to 3 ft.	\$3.75
3 to 4 ft.	5.00
4 to 5 ft.	8.50
5 to 6 ft.	12.00
6 to 7 ft.	15.00
7 to 8 ft.	18.00
8 to 9 ft.	22.50

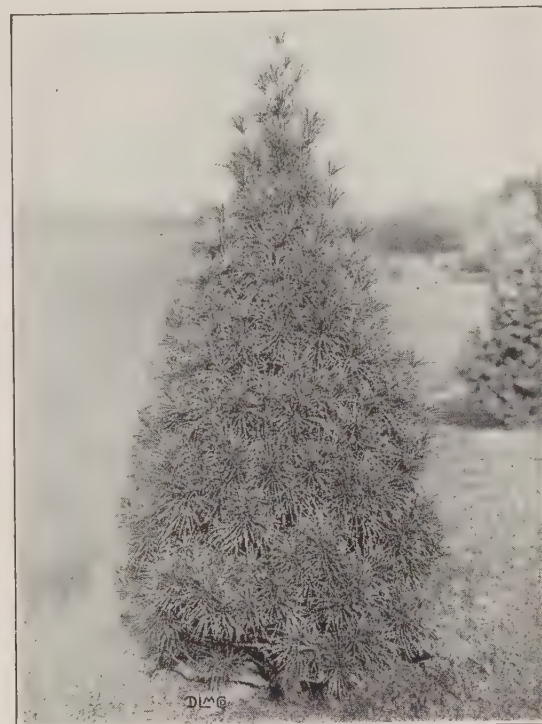

SPECIAL OFFER

White Pine—For screen or informal planting. Natural growth which is not as dense, because of trimming, as the above listed stock. Excellent for low cost reforestation, windbreak or screen
2 to 3 ft.
10 for \$27.50 \$250.00 per 100
3 to 4 ft.
10 for \$45.00 \$400.00 per 100

PSEUDOTSUGA

Douglasi (*Douglas Fir*). This handsome tree has gray-green foliage, is very hardy and extremely ornamental at all stages of growth. Its hardness and beauty would be difficult to overrate. Thrives in Canada and will endure both drought and cold. Some specimens are rich deep green, others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and believe we have superior stock to offer.

3 to 4 ft.	\$6.00
4 to 5 ft.	8.00
5 to 6 ft.	12.00
6 to 7 ft.	18.00

JAPANESE UMBRELLA PINE (*Sciadopitys*)

SCIADOPITYS

Verticillata (*Japanese Umbrella Pine*). A beautiful specimen for the lawn, narrowly pyramidal, with large, rich green needles in whorls. Very hardy and unusual.

2 to 3 ft.	\$5.00
3 to 4 ft.	7.50
4 to 5 ft.	15.00
5 to 6 ft.	18.00
6 to 7 ft.	25.00

In the Nursery Field

FIRST, the customers' need for more help in landscaping—whether a large or small home—was recognized. In order to provide the right plants for the right places, it was necessary to grow more varieties and in a larger range of sizes. This was accomplished by expanding the acreage of the nurseries so as to meet the growing needs of the customers. In this way, Rosedale not only supplies the best of the old varieties, but at the same time, offers the best in new plant material. It was not long before the landscaping work under Mr. Taylor's personal supervision became so heavy that he found it necessary to establish a separate Landscape Department, headed by a person with special training and aptitude in Landscape Design.

The development of the Saw Mill River Parkway provided a new route to the nurseries and a new entrance—now our main entrance—was opened for easy access.

Rosedale's improved nursery stock, skilled nursery personnel and additional services not only benefitted our customers but soon made its influence felt in raising the caliber of nursery business generally. This took concrete form in promoting the organization of local nursery owners into an association for the interchange of ideas to advance high ethical standards of business practice, make more and healthier stock available to the public, and to learn from one another time and labor-saving devices which, obviously, are reflected in the plant prices to customers. This local association is known as the Eastern New York Nurserymen's Association. In 1943 this group joined with the Western New York and Long Island Nurserymen's Associations to form a state organization. At their first meeting, in recognition of the tremendous job done by Mr. Taylor in his unification, the nurserymen elected him as their first president—to which office he was elected three times.

Howard C. Taylor, Owner-Manager, at his desk.

Rosedale's men are skilled, especially trained in the proper digging and handling of nursery stock. Seeing a need for more educational opportunities open to men interested in nursery operations and the practical application of landscape design, Mr. Taylor works closely with the educational advisory committees of various nurserymen's associations, the faculty of Cornell University, and the Long Island Agricultural and Technical

Howard Taylor and his son, Powers, discuss the application of 2-4-D weed control to a block of *Taxus*.

Institute—serving, in addition, as a member of the Advisory Board of the latter.

Because of constantly striving for more informed nurserymen and better trained nursery workers so as to increase service to nursery customers, it was not long before his force was felt farther afield. In 1944, while attending the national convention of nurserymen in Cincinnati, Mr. Taylor was elected to the Executive Committee of the American Association of Nurserymen (the national organization) as representative of the nurserymen from Maine through Pennsylvania. In 1946, Mr. Taylor was appointed Treasurer of the A. A. N. and in 1947, elected Vice-President.

Mr. Taylor's active participation in such organizational work enables him to maintain very close contact with the foremost organizations of the trade and to adopt the latest in technical advancement and merchandising procedures.

WHITE SPRUCE (*Picea canadensis*)

MUGHO PINE (*Pinus mughus*)

THUJA • Arborvitae

Ornamental evergreen trees of narrow pyramidal habit. They are favorites for formal gardens because of their regular, symmetrical habit. Adapted for hedges and windbreaks. Thrive best in a moist, loamy soil.

Occidentalis (*American Arborvitae*). Beautiful native tree, commonly known as White Cedar. Especially useful for hedges and screens.
 3 to 4 ft. \$3.75 | 5 to 6 ft. \$9.00
 4 to 5 ft. 6.50 | 6 to 7 ft. 12.00
 7 to 8 ft. \$16.00

Occidentalis plicata (*Giant Arborvitae*). Although of narrow, pyramidal form, this tree attains tremendous height. The effect of glossy, bright green leaves against the cinnamon-red bark is of interesting beauty which becomes accentuated with age.
 4 to 5 ft. \$6.50

Occidentalis pyramidalis (*Pyramidal Arborvitae*). The deep green color and upright pyramidal form of this species renders it conspicuous in contrast with other evergreens. It is very hardy and vigorous. We recommend this Arborvitae for an evergreen hedge.
 3 to 4 ft. \$3.75 | 5 to 6 ft. \$9.00
 4 to 5 ft. 6.00 | 6 to 7 ft. 12.00
 7 to 8 ft. \$14.00

Occidentalis nigra (*Dark American Arborvitae*). An upright variety maintains a dark, rich green.
 3 to 4 ft. \$3.75 | 4 to 5 ft. \$6.50
 5 to 6 ft. \$9.00

Rosenthalii (*Rosenthal Arborvitae*). A rugged columnar tree of slower growing habit than other Arborvitaes. Very hardy with especially fine foliage during the Winter.
 4 to 5 ft. \$10.00 | 5 to 6 ft. \$12.00

Occidentalis spiralis. Compact tree with upright branches and short, close set branchlets clothed with beautiful, dark foliage.
 3 to 4 ft. \$6.00 | 4 to 5 ft. \$7.50

Occidentalis wareana (*Ware or Siberian Arborvitae*). A sturdy variety of broad, pyramidal form upon maturity. Gray-green foliage. Dense, rugged grower of slow habit.
 3 to 4 ft. \$6.00 | 4 to 5 ft. \$7.50

Occidentalis woodwardi (*Woodward Globe Arborvitae*). Dense globe-shaped variety which maintains its shape without shearing; foliage is a pleasing seagreen in Summer; in Winter, bronze; perfectly hardy; grows about 3 ft. high.
 18 to 24 in. \$3.50 | 2 to 2½ ft. \$5.00

Orientalis elegantissima (*Biota*). Slender, columnar form with bright golden-tipped foliage in the Spring, green-gold in Summer. A strong accent during Winter, with dark golden bronze coloring. Hardest of Chinese Arborvitaes.
 4 to 5 ft. \$7.50

THUJA—Continued

Orientalis nana (*Golden Biota*). A neat, compact, dwarf plant of round, or egg shape with yellow to bronze foliage. Always retains its neat, compact form without training.
 12 to 15 in. \$2.25 | 15 to 18 in. \$2.75
 18 to 24 in. \$3.50

TSUGA • Hemlock

Hemlocks can be used in many different ways; as lawn specimens they attain great size and beauty; by shearing they may be used in foundation planting and kept from overgrowing for years and years; for border or screen they form a most naturalistic background. Hemlocks thrive in shade or full sun and are practically immune to insects and disease.

Canadensis (*Canadian Hemlock*). A handsome, ornamental tree growing 70-100 ft. high; dark green foliage; hardy as far north as Canada.
 10 to 15 in. \$1.50 each, \$14.00 per 10,
 \$125.00 per 100

15 to 18 in. \$2.25 each, \$20.00 per 10
 18 to 24 in. 3.50 each, 30.00 per 10
 2 to 3 ft. \$5.00 | 6 to 7 ft. \$18.00
 3 to 4 ft. 7.50 | 7 to 8 ft. 25.00
 4 to 5 ft. 10.00 | 8 to 9 ft. 35.00
 5 to 6 ft. 15.00 | 9 to 10 ft. 50.00
 10 to 12 ft. \$75.00

Canadensis sargentii (*Sargent's Weeping Hemlock*). Makes a tremendous mound of wavy outline many times broader than high, always well clothed and neat. Like all good things it develops slowly but becomes a real possession in your "personal" effects. Magnificent.
 18 to 24 in. \$7.50 | 3 to 3½ ft. \$15.00
 2 to 2½ ft. 10.00 | 3½ to 4 ft. 20.00
 2½ to 3 ft. 12.50 | 4 to 4½ ft. 30.00

Caroliniana (*Southern Hemlock*). Native of the mountains of the Southern States and perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from our Canadian Hemlock.
 2 to 3 ft. \$6.00 | 6 to 7 ft. \$20.00
 5 to 6 ft. 17.50 | 7 to 8 ft. 30.00
 8 to 9 ft. \$40.00

Diversifolia (*Japanese Hemlock*). Very dwarf with crisp, dense foliage on reddish branches. Slowest growing of all our Hemlocks and will thrive in sun or partial shade.
 2 to 2½ ft. \$7.50 | 3 to 3½ ft. \$12.00
 2½ to 3 ft. 9.00 | 3½ to 4 ft. 15.00

McLayi. A unique dwarf Hemlock of unusual form. Entirely hardy and suitable for foundation planting because of slow growth and picturesque shape.
 4 to 5 ft. \$15.00
 5 to 6 ft. 20.00

AUSTRIAN PINE (*Pinus nigra*)

HEMLOCK (*Tsuga canadensis*)

PYRAMIDAL ARBORVITAE
(*Thuja pyramidalis*)

**ARISTOCRAT OF EVERGREENS—
MOST DESIRABLE OF ALL**

The rich, dark green color, hardiness, freedom from ills and slow rugged development make these the most popular of all the needled Evergreens. They thrive best in a moderately sandy loam but will endure adverse soil conditions and shade.

TAXUS • Yew

The many varied shapes and types of growth—upright columnar, pyramidal, dwarf, spreading, drooping, to mention just a few—make Yews suitable for almost any landscape requirements. Among other uses they make the finest of all hedges.

Our selection of Yews is very extensive, of finest quality. *We offer these at new low prices.*

HICK'S YEW
(*Taxus hicksii*)

BROWN'S YEW (*Taxus brownii*)

UPRIGHT JAPANESE YEW
(*Taxus cuspidata capitata*)

Baccata repandens (*Spreading English Yew*).

This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique.

12 to 15 in. . . . \$3.75	18 to 24 in. . . . \$5.50
15 to 18 in. . . . 4.25	2 to 2½ ft. . . . 7.50
2½ to 3 ft.	\$9.00

Cuspidata (*Spreading Japanese Yew*). Dense, spreading habit. Deep green foliage. Especially useful near the house. Very hardy.

15 to 18 in. . . . \$3.95	2½ to 3 ft. . . . \$10.00
18 to 24 in. . . . 6.25	3 to 3½ ft. . . . 15.00
2 to 2½ ft. . . . 7.00	3½ to 4 ft. . . . 18.00
4 to 4½ ft.	\$22.50

Taxus Hatfield Spreader and **Taxus densiformis** are developments of *Cuspidata* and similar in shape. Same prices apply to these varieties. Come in and see them.

Cuspidata brevifolia (*Dwarf Japanese Yew*). Dwarf, compact, very hardy; low spreading form.

12 to 15 in. . . . \$3.75	2½ to 3 ft. . . . \$20.00
15 to 18 in. . . . 5.00	3 to 3½ ft. . . . 30.00
18 to 24 in. . . . 7.50	3½ to 4 ft. . . . 40.00
2 to 2½ ft. . . . 12.00	4 to 4½ ft. . . . 50.00
4½ to 5 ft.	\$75.00

A few larger sizes priced on selection

Cuspidata capitata (*Upright Japanese Yew*).

Upright tree form of *Cuspidata*, very desirable for foundation planting; best of evergreen hedges.

15 to 18 in. . . . \$4.75	3½ to 4 ft. . . . \$17.50
18 to 24 in. . . . 6.00	4 to 4½ ft. . . . 20.00
2 to 2½ ft. . . . 7.50	4½ to 5 ft. . . . 25.00
2½ to 3 ft. . . . 9.00	5 to 5½ ft. . . . 30.00
3 to 3½ ft. . . . 14.00	5½ to 6 ft. . . . 37.50

A few large specimens priced on selection

SARGENT'S WEEPING HEMLOCK (*Tsuga sargentii*)

BERRIES OF TAXUS

Hatfieldi (*Hatfield Upright Yew*). Finest upright Yew; holds its form almost without trimming.

15 to 18 in.	\$4.50
18 to 24 in.	5.50
2 to 2½ ft.	7.50
2½ to 3 ft.	10.00
3 to 3½ ft.	15.00

Hicksi (*Hicks Yew*). Interesting form of this most useful family. Exceptionally dark green needles. Grows in an upright, columnar shape. Bears red berries profusely.

18 to 24 in.	\$6.00
2 to 2½ ft.	7.50
2½ to 3 ft.	10.00
3 to 3½ ft.	12.00
3½ to 4 ft. . . . \$15.00	4½ to 5 ft. . . . \$20.00
4 to 4½ ft. . . . 17.50	5 to 5½ ft. . . . 25.00

Intermedia. Semi-dwarf variety, much superior to *Cuspidata* for foundation planting. Dense and compact.

18 to 24 in.	\$6.50
2 to 2½ ft.	8.00
2½ to 3 ft.	10.00

Media browni. This rounded, full-centered type of compact Yew is our very best type for hedges where medium height and considerable fullness is desired. Our stock this year is especially fine and we offer this as our best buy in *Taxus*.

15 to 18 in.	\$4.75
18 to 24 in.	5.50
2 to 2½ ft.	7.50
2½ to 3 ft.	9.00
3 to 3½ ft.	12.00

Media, Irish. A dense, compact mound with slender, shiny, dark green needles.

2 to 2½ ft.	\$8.00
2½ to 3 ft.	10.00

Moon's Columnar Yew. An upright Yew resembling the Hicks variety with dense, heavy, deeply foliated rich green in Winter as well as Summer. A suitable substitute for Boxwood. Splendid for hedge.

18 to 24 in.	\$6.00
2 to 2½ ft.	8.00
2½ to 3 ft.	12.00

Vermeulen. A dense-growing, upright, mounded type of Yew. Slightly irregular in character it makes an interesting addition to the landscape planting, and its extremely slow growth makes it more valuable than Boxwood in this climate for entrance planting.

2 to 2½ ft.	\$10.00
2½ to 3 ft.	12.00
3 to 3½ ft.	15.00

HATFIELD YEW (*Taxus hatfieldi*)

Rosedale's LANDSCAPE SERVICE

ONE of the most valuable services Rosedale makes available to you is advice and help on landscaping your home and grounds.

Landscaping is no longer a luxury but a bonafide investment raising the value of your property and that of the community, as well as increasing the enjoyment of your home.

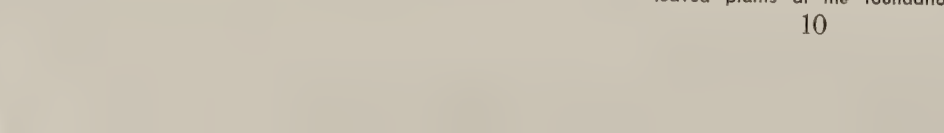

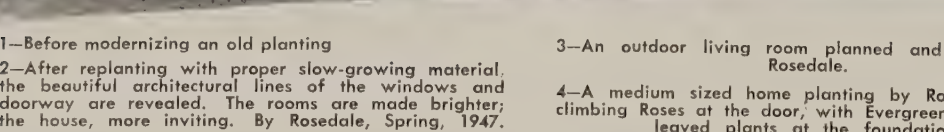

Reveal the true lines of your home—bring out its best features. Sunlight, air and beauty go together. The cluttered, over-decorated Victorian period—outside as well as inside the home—is luckily a thing of the past.

Use *all* your property—gain all the benefits you can—by apportioning the grounds about your home to work and play areas. Let our Landscape Department suggest a planting that is productive as well as attractive. (Fruits, for example, serve this dual purpose.)

Today the architect and landscape architect join hands to give you the best in living—the unity of enjoying the outdoors from within and the indoors while outside. Our landscape architects can give you the happy union of “inside-outside” design by creating charming pictures from your windows and outdoor living rooms for your warm weather relaxation.

All this can be made “privately yours” with the friendly hedge and the proper plant screening.

A Rosedale planting is a controlled planting; that is, one that is easy to care for and at the same time one that will not become a tangled mass of overgrowth in a few years. This is possible only because of the skilled planning and careful thought given to the selection of material which is exactly right for the spot.

1—Before modernizing an old planting

2—After replanting with proper slow-growing material, the beautiful architectural lines of the windows and doorway are revealed. The rooms are made brighter; the house, more inviting. By Rosedale, Spring, 1947.

3—An outdoor living room planned and planted by Rosedale.

4—A medium sized home planting by Rosedale using climbing Roses at the door, with Evergreen and Broad-leaved plants at the foundation.

5—At the drawing board with plan being drawn to scale and showing exact location of each plant to be planted.

6—A small home charmingly treated by us with a mixed Evergreen planting for year-round contrast.

On the Saw Mill River Parkway

We Invite You To....

Make an Appointment with Our Landscape Architect

Telephone, write or call in person for an appointment with one of our landscape architects to call at your home.

If it is at all possible, we suggest making home consultation appointments for sometime during the week. Weekends are usually reserved for appointments at the nursery for showing plant material. Also, more time can be allowed for consultation during the week.

Let Us Consult with You at Your Home

We discuss with you your planting needs. We consider your likes and dislikes in plant material and design. We measure your property so that the suggested planting plan may be drawn to scale. Here let us suggest having an over-all plan drawn up so that there is continuity from one area to another with the parts blending into a unified, pleasing whole. Then, plant as much as you want each planting season with each part complete in itself. Consultation and plans are made without obligation on plantings involving \$100-or-more of plant materials.

See the Right Plan Developed for Your Home

After consultation, your plan is developed at the drawing board. Constant thought is given to your preferences and the particular requirements of your property. The layout shows the exact location of each plant to be installed as well as the good existing plant material which is to remain. The layout sketch with a list of plants, plant sizes and costs is submitted to you for approval.

Come to the Nursery to See the Plant Material Selected

Here at the nursery you see the material we have selected for you, and if approved, it is tagged at once; thus, you receive the material you choose.

Have Your Planting Done by Experts

A Rosedale planting is installed by skilled nursery workers under the supervision of experienced planting foremen. These men watch details carefully and assure you of a successful planting according to your plan.

7—In November 1946, a handsome brick home was stifled by this dark jungle-like growth.

8—After careful planning and only 2 days spent in the actual clearing and replanting, Rosedale returned to the owner a home-fresh, inviting and landscaped in character with its setting.

9—An ideal planting of massed colorful flowering Evergreens. Ilex bullata greets you at the top of the steps; Mountain Laurel, Carolina Rhododendron and Azaleas cluster naturally about the foundation.

10—Dignified yet graceful entrance planting to Ferncliff Cemetery. A good example of our "controlled design"—this planting is five years old.

11—A Rosedale low-growing informal foundation planting, with flowering trees in scale, suited to the low porch and roof.

12 and 13—Landscaping fits into the picture of modern industrial plants. The Indiana Steel Products Co. plant at Chauncey, N. Y., landscaped by Rosedale Nurseries in the Fall of 1947.

PINK DOGWOOD (*Cornus florida rubra*)

Flowering Trees are an investment in ever increasing beauty. They may be used effectively in the border, as lawn specimens, in conjunction with evergreens or as espaliers against bare wall surfaces. We have selected the varieties listed below with great care to insure complete satisfaction. They are all hardy, of pleasing colors and most varieties have extremely ornamental fruit.

We call particular attention to our stock of Dogwoods, Flowering Crabs, and Magnolias. We offer a wide range of sizes attractively priced and are proud of this stock. Your satisfaction is assured.

CORNUS • Dogwood

Florida (*White Dogwood*). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The foliage is deep green turning a brilliant red in Autumn.

5 to 6 ft.....	\$9.00	8 to 9 ft.....	\$20.00
6 to 7 ft.....	12.00	10 to 12 ft.....	25.00
7 to 8 ft.....	15.00	12 to 14 ft.....	40.00
14 to 16 ft.....	\$60.00		

Florida rubra (*Pink or Red Dogwood*). Similar to our native White Dogwood in habit and form but with masses of pink flowers. Pink Dogwoods are extremely scarce and all sizes may not be available.

3 to 4 ft.....	\$6.00	6 to 7 ft.....	\$15.00
4 to 5 ft.....	8.00	7 to 8 ft.....	20.00
5 to 6 ft.....	12.00	8 to 9 ft.....	25.00

PAUL'S SCARLET HAWTHORN (*Crataegus*)

PURPLE-LEAF CRAB (*Malus floribunda atropurpurea*)

FRUIT OF MALUS SIEBOLDI

PARKMAN'S CRAB (*Malus parkmani*)

CORNUS Dogwood—Continued

Kousa (*Kousa Dogwood*). White flowers borne after the leaves come out. Large, Strawberry-like crimson fruit.
 5 to 6 ft.\$9.00 | 8 to 10 ft.\$20.00
 7 to 8 ft.15.00 | 10 to 12 ft.30.00

CRATAEGUS • Hawthorn

Arnoldiana. Bright crimson-fruited Hawthorn of medium size. Zigzag branches with stout spines. Interesting upright shape.
 4 to 5 ft.\$3.50 | 5 to 6 ft.\$5.00

Cordata (*Washington Thorn*). Upright tree of medium size. Blooms are clustered white and fruit is brilliant red. Ideal hedge form or will make a fine specimen tree.
 4 to 5 ft.\$4.50 | 5 to 6 ft.\$6.00

Oxyacantha splendens (*Paul's Scarlet Thorn*). Double scarlet flowers. Late Spring bloomer. One of the finest.
 4 to 5 ft.\$6.00 | 6 to 7 ft.\$10.00
 5 to 6 ft.8.00 | 7 to 8 ft.15.00

LABURNUM

Vossi (*Golden Chain*). Large, pendant golden flowers hang from the twigs like Wisteria. Appears to be more hardy than *Laburnum vulgare*. 5 to 6 ft.\$7.50

MAGNOLIA

Soulangeana (*Saucer Magnolia*). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves.
 2 to 3 ft.\$7.50 | 4 to 5 ft.\$12.00 | 6 to 7 ft.\$22.50
 3 to 4 ft.10.00 | 5 to 6 ft.17.50 | 7 to 8 ft.35.00
 8 to 10 ft.\$45.00

Soulangeana lennei. An outstanding variety with very handsome, big, leathery leaves. Late blooms of deep purple, white inside.
 2 to 2½ ft.\$8.00 | 3 to 4 ft.\$12.00
 2½ to 3 ft.9.00 | 4 to 5 ft.15.00

Soulangeana nigra (*Purple Magnolia*). Similar to *Lennei* with huge, purple petals; heavy foliage of great beauty.
 4 to 5 ft.\$12.00 | 6 to 7 ft.\$20.00
 5 to 6 ft.15.00 | 6½ to 8 ft. heavy.25.00

Stellata (*Star Magnolia*). Small, broad, rounding habit, star-shaped flowers of pure dazzling white. Hardest and finest of all.
 18 to 24 in.\$7.50 | 2 to 3 ft.\$9.00
 3 to 4 ft.\$15.00

GOLDEN CHAIN (*Laburnum vossii*)

MAGNOLIA STELLATA

MALUS—Continued

Floribunda. A single, rose pink variety bearing an abundance of fruit even when young, which is very attractive to birds; vigorous grower.
 6 to 7 ft.\$15.00 | 7 to 8 ft.\$17.50

Floribunda atropurpurea (*Purple-leaf Crab*). Brilliant foliage of rich reddish-purple. Single, deep red flowers and red fruit in clusters.
 4 to 5 ft.\$5.00 | 5 to 6 ft.\$7.50
 6 to 7 ft.\$9.00

Hopa. Erect, symmetrical leaves tinged purple. Flowers large, red single; dark red fruit. The fruit of this variety is good for jelly and is most decorative of all varieties.
 4 to 5 ft.\$4.50 | 7 to 8 ft.\$15.00
 6 to 7 ft.9.00 | 8 to 10 ft. heavy.20.00
 10 to 12 ft. heavy.\$25.00

FLOWERING CHERRY (*Prunus Paul Wihlert*)

MAGNOLIA SOULANGEANA

MAGNOLIA—Continued

Stellata rosea (*Rosy Star Magnolia*). Same as *Stellata* except for dainty rose pink flowers.
 2 to 3 ft.\$9.00

MALUS Flowering Crab

Arnoldiana (*Arnold Crab*). Semi-double pink flowers opening to white. Yellow fruit. Makes a dense mound of shrub-like growth.
 8 to 10 ft. specimens.\$30.00

Atrosanguinea (*Carmine Crab*). Single crimson flowers in great profusion. Low-headed tree, spreading in habit, with slightly twisted branches.
 3 to 4 ft. very heavy.\$6.00
 4 to 5 ft. very heavy.9.00
 10 to 12 ft. heavy specimens.35.00

MALUS—Continued

Ioensis bechteli (*Bechtel's Crab*). A vigorous, shapely tree with double pink flowers exactly like miniature Roses and of delightful rose-like fragrance. A very fine variety.
3 to 4 ft. \$3.00
4 to 5 ft. 5.00
5 to 6 ft. 8.00

Ochermeria meyeri. This unusual weeping form is very handsome. Covered in Spring with red flowers of considerable size and in Fall, with large red fruit.
5 to 6 ft. \$17.50
6 to 7 ft. 22.50

Parkmani (*Parkman's Crab*). Slow growing, tree with small, dark green leaves. Dark rose buds opening to semidouble pale pink blossoms. Dull red fruit.
4 to 5 ft. \$6.00 | 5 to 6 ft. \$ 9.00
6 to 7 ft. 15.00

Scheideckeri (*Scheidecker's Crab*). Very early, double bright pink blossoms. Bears waxy yellow fruit like Cherries. Distinctly upright and slender.
5 to 6 ft. \$7.50
8 to 10 ft. specimens 25.00

Sieboldi. Pinkish white flowers borne in great abundance. Particularly handsome in Fall, with brilliant scarlet fruit the size of sour Cherries.
10 to 12 ft. heavy specimens \$35.00

Spectabilis (*Chinese Crab*). A shapely tree with good shiny foliage and fragrant, semi-double, delicate pink flowers. Pale yellow fruit.
5 to 6 ft. \$9.00 | 6 to 7 ft. \$12.00
7 to 8 ft. 17.50

Theifera (*Tea Crab*). Irregular, spreading top with zig-zag branches completely clothed with flowers. Buds red, opening to single pink flowers. Fruits dull red. Tree effect in bloom is Apple-like; in form, vase-shaped.
6 to 7 ft. \$12.00
7 to 8 ft. 17.50

MOUNTAINASH (*Sorbus*)

OXYDENDRUM

Arboreum (*Sorrel Tree*). A comparatively dwarf tree bearing an abundance of white flowers in Midsummer. The foliage turns several shades of red and crimson in Fall. Seldom seen in the Fall without being admired.
4 to 5 ft. \$6.50
5 to 6 ft. 7.50
7 to 8 ft. 10.00
8 to 10 ft. 12.00

PRUNUS
Flowering Cherries

(*Serrulata Spectabilis Rosea*)

These are the Oriental Cherries which are so famous in Washington. They are easily grown and will produce the almost phenomenal display in Spring which so many journey to Washington to see.

Cistena. Deep bronzy foliage and fine single pink flowers in Spring make this of special interest. Grows to 10 ft.
4 to 5 ft. \$6.00

Kwanzan. Large, double, deep pink flowers, almost red in bud. Well formed, vigorous grower which is very popular.
4 to 5 ft. \$6.00
5 to 6 ft. 7.50

Naden. A double deep pink variety of upright growth.
4 to 5 ft. \$6.00
5 to 6 ft. 7.50

Paul Wohlert. Fragrant semi-double deep pink.
4 to 5 ft. \$6.00
5 to 6 ft. 7.50
6 to 7 ft. 10.00

WEEPING CHERRIES

Serrulata pendula (*Weeping Japanese Cherries*). A pendulous form of the well-known Flowering Cherries so admired at Washington, D. C. Double bright pink flowers in great profusion in early Spring.
3 yr., 6 ft. stems \$10.00

SORBUS • Mountainash

Aucuparia (*European Mountainash*). Well-formed tree with small leaves and bearing large clusters of orange red berries.
8 to 10 ft. \$4.50
10 to 12 ft. 7.50

Mrs. Marie M. Enberg

Behind-the-scenes at Rosedale

EVERYONE enjoys a trip behind-the-scenes to see just how things are done and this seems to be particularly true of people who come to the nurseries. So through the medium of these pages we hope to give you a little "inside" picture.

Let us start in the office where your inquiries by telephone and by mail—and many in person—are first received. It is a revelation to most newcomers to find a modernly equipped office but since this is the clearing house for all orders, it is necessary.

Office management, customer contact, advertising, billing and bookkeeping are in the capable hands of Mrs. Marie M. Enberg, Office Manager. A college graduate and thoroughly experienced, keeping the organization smoothly and efficiently operating is her responsibility.

On our communication system from the office, let us ask Frank Drab, our chief salesman in the Sales Shed, to show you the plants you have come to see. And those questions you have—Mr. Drab, a graduate of Long Island Agricultural and Technical Institute, having specialized in the nursery field, can answer them and suggest a plant to fill the spot you have in mind. Not only suggest but show you the plants and you may select the very tree you want. Right then and there your name is written on a weather-proof tag which is put on your tree.

Meanwhile other orders, on which material has not been personally selected by the customer, are receiving the careful attention of Rosedale's popular Superintendent, Bill Herman. Bill, with a lifetime of experience and knowledge of plants and nursery operations, is pointing out to the diggers by "stringing" just what trees are to be dug. This

string is then used to tie up the branches, preventing damage by breaking. So you are assured of well-chosen material whether you are present to select or not.

After selecting the plant material the customer and the salesman return to the Sales Shed to write up the order and choose the appropriate fertilizers for the plants selected.

Frank Drab tagging tree with customers' name to insure their receiving tree selected.

Bill Herman selecting *Arborvitae* for an order by "stringing."

Sales Shed and Lath House where customers and sales personnel meet before going into the fields to see material desired.

Customer and Salesman return to Shed to write order and select proper fertilizer.

Small orders are grouped as to areas and handled by Special Delivery Truck.

SHADE TREES

The soil at Rosedale insures good root systems which in turn insures well developed shade trees. They are well spaced in rows at our nursery to allow for proper development of top. We grow only varieties which will succeed in existing climatic conditions in this territory. You will find in our list varieties for almost every purpose.

ACER • Maple

The Maples are universally popular. They are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street planting and thrives well near the sea.

Palmatum atropurpureum (Redleaved Japanese Maple). A comparatively dwarf Maple, slow in growth and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well shaped.
18 to 24 in. . . \$7.50 | 3 to 3½ ft. . . \$15.00
2 to 2½ ft. . . 10.00 | 3½ to 4 ft. . . 20.00
2½ to 3 ft. . . 12.00 | 4 to 5 ft. . . 25.00

Palmatum dissectum (Cutleaf Japanese Maple). Very dwarf form with finely cut purple red leaves. Very graceful and a real treasure when fully developed.
18 to 24 in. . . \$7.50 | 2 to 2½ ft. . . \$10.00

Platanoides (Norway Maple). Foremost of the Maples because of its regular outline, wide-spreading branches, and deep green foliage which is retained after the first heavy frosts. Becomes a good shade tree quickly.
1¾ to 2 in. cal. \$7.50
2 to 2½ in. cal. 12.00
2½ to 3 in. cal. 15.00
3 to 3½ in. cal. 18.00
3½ to 4 in. cal. 25.00
4 to 4½ in. cal. B&B. 40.00

Larger sizes priced on application

Platanoides schwedleri nigra (Norway Maple, Crimson King, Patent No. 735). Crimson King is a beautiful form of Schwedler Maple originated in Europe. It is brilliant crimson all through the Summer months. Crimson King has been under observation in America for ten years and has kept its brilliant coloring all through the season.
6 to 8 ft. \$10.00

Saccharum (Sugar Maple). A beautiful tree of upright form. Attains a greater height than the Norway Maple and colors yellow and red in Fall.
1¾ to 2 in. cal. \$7.50
2 to 2½ in. cal. 12.00
2½ to 3 in. cal. 16.00
3 to 3½ in. cal. 22.50
3½ to 4 in. cal. 30.00

BETULA • Birch

Alba (European White Birch). Very graceful habit and creamy white bark even in the young trees.
8 to 10 ft. . . \$7.50 | 10 to 12 ft. . . \$12.00
12 to 14 ft. \$17.50

Populifolia (Gray or Silver Birch). Generally in clumps of two or more white trunks rising gracefully from the ground. The small leaves quiver at the slightest breeze.
10 to 12 ft. \$12.00
10 to 12 ft. heavy. 17.50
12 to 14 ft. 25.00

Larger plants priced on selection

FAGUS • Beech

Americana (American Beech). Grows slowly, but a handsome native, whose clean, gray-barked trunks are familiar in light woods. Prefers well-drained soil and Spring planting.
10 to 12 ft. . . \$40.00 | 12 to 14 ft. . . \$65.00
14 to 16 ft. \$80.00

Sylvatica (European Beech). For screen or hedge, this Beech is ideal among deciduous trees. It gives nearly as much screen in Winter as in Summer, owing to the fact that the dead leaves persist in Winter. As it bears the shears well, it may be kept within bounds for hedge purposes and grows as dense as any hedge.
6 to 7 ft. . . . \$12.50 | 7 to 8 ft. . . . \$17.50

Sylvatica riversi (Rivers Purple Beech). This tree is similar to the European Beech except for its beautiful purple foliage. Handsome and dignified.
4 to 5 ft. . . . \$15.00 | 6 to 7 ft. . . . \$22.50
5 to 6 ft. . . . 18.00 | 7 to 8 ft. . . . 30.00

A few larger sizes priced on selection

GLEDITSIA

Gleditsia inermis (Thornless Honeylocust). This is a truly lovely tree. Its towering, spreading canopy of lace-like foliage is the epitome of light and airy grace. Freedom from insect pests is only one of its outstanding characteristics. Not entirely free from thorns but many less than the older form *Triacanthos*. Hardy and long lived. This tree is the answer to problem of planting something different in a shade tree.
8 to 10 ft. \$7.50
10 to 12 ft., 1½ to 2 in. cal. 10.00
2 to 2½ in. cal. 15.00
2½ to 3 in. cal. 20.00

LIQUIDAMBAR

Styraciflua (Sweet Gum). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. The star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects.
1½ to 2 in. cal. \$12.00
2 to 2½ in. cal. 16.00
2½ to 3 in. cal. 20.00

PLATANUS

Platanus occidentalis (American Plane). This grand native American tree is sometimes called Buttonball or Sycamore. It attains great size and spread with open-branching and as soon as it reaches a little age will reveal attractive white bark. Leaves are large and the shade provided is light and airy. We recommend it highly for a rapid growing shade tree in well drained soil.
1½ to 2 in. cal. \$10.00
4 to 5 in. cal. 55.00
5 to 6 in. cal. 65.00

QUERCUS • Oak

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their reputation as slow growers is not warranted, for, when once established, they will make a yearly growth equal to that of almost any other species.

Palustris (Pin Oak). A superb and distinct tree. The Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves, changing to deep red in Autumn. Jack Frost has never shown greater skill than in the coloring he produces in Pin and Scarlet Oaks.
1½ to 2 in. cal. \$10.00
2 to 2½ in. cal. 15.00
2½ to 3 in. cal. 25.00

Larger specimens priced on selection

WHITE BIRCH

Rubra (Red Oak). A fine, all-round tree with wide spreading branches. Colorful Fall foliage remains on all Winter.
1½ to 2 in. cal. \$10.00
2 to 2½ in. cal. 15.00
2½ to 3 in. cal. 25.00

SALIX • Willow

Babylonica (Weeping Willow). Long, stringy branches droop vertically to the ground, and with the narrow, light green leaves create a soft, velvety texture. Grows rapidly especially when close to water.
6 to 8 ft. \$3.50 each, \$30.00 per 10
8 to 10 ft. \$5.00
10 to 12 ft. 7.50

Niobe (Golden Twig Weeping Willow).
6 to 8 ft. . . . \$3.50 | 8 to 10 ft. . . . \$5.00

Salamoni (Salamon Weeping Willow). Similar to Babylonica but less pendulous—ascending branches and pendulous branchlets. Sturdier than Babylonica.
6 to 8 ft. \$2.75

Vitellina pendula (Yellow Weeping Willow). A large, venerable tree of pendulous form. Short trunk and rounded outline. Slender branchlets are golden yellow; conspicuous in Winter.
6 to 8 ft. \$3.50

Roses for your garden

CHRISTOPHER STONE

Never before has
Rosedale offered
such a symphony of brilliant,
glowing colors in Roses as
listed on pages 16 through 20.

PINK DAWN

Rosedale's Anniversary Rose

Poinsettia

THE MOST BRILLIANT OF ALL RED ROSES

We want to express our appreciation to you, our 50th Anniversary Customer, by presenting you with our Anniversary Gift Rose Bush.

Poinsettia splendidly demonstrates the quality, ease of culture and hardiness of Rosedale plant material and for these reasons has been selected as our 50th Anniversary Gift Rose.

A vivid, fiery glow emanates from the rich, velvety petals of high-centered buds which open to long-lasting, perfectly formed blooms. Glossy green foliage enhances the beauty of this plant so noted for its vigor and hardiness. Reports from all parts of the country testify to the reliability of Rosedale's Anniversary Rose.

We look forward to presenting you with Our Anniversary Rose Bush at the nurseries.

MRS. E. P. THOM

ROSEDALE ROSES

Rosedale Roses are noted for their quick starting, due to the superior handling they receive over the Winter. You can have a garden in full bloom in June with Rosedale Roses planted this Spring. Only sturdy outdoor-grown Roses, which are cared for in our modern storage are offered.

It's easy to grow Roses if you use Rosedale Roses. Varieties offered are known to thrive well in a wide range of conditions and our Northern-grown Roses give you the benefits of acclimated stock.

We suggest April planting. Order early and we will ship at the proper time. All Roses sent postpaid by parcel post.

HARDY HYBRID TEA or EVERBLOOMING ROSES

Two Years Old—Field-Grown, Low-Budded on Multiflora Stock—The Best for Outdoor Planting

\$1.15 each, \$12.50 per doz. except as noted

Ami Quinard. Dark maroon red. Semi-double flower with velvety sheen.

Autumn. Burnt orange, streaked with red. Moderately fragrant.

Betty Uprichard. Carmine buds, salmon-orange inside; coppery carmine outside.

Caledonia. Large, white, very double, hardy and long-lasting. Slightly fragrant.

Christopher Stone. Velvety scarlet-crimson. Very fragrant. Stands hot weather.

Charles K. Douglas. Lustrous scarlet crimson. Large, loose, slightly fragrant flowers. Bushy.

Condesa de Sastago. Pink, two-tone. Coppery pink inside with golden tint outside. Raspberry fragrance.

Dame Edith Helen. Pink. Large and full continuous bloomer. Intensely fragrant.

Duquesa de Penaranda. Copper-apricot in Summer; cinnamon-peach in Fall. Long-stemmed.

Edel. White; ivory shading at base. A flower of great quality.

Edith Nellie Perkins. Pink two-tone. Salmon-pink inside; rich copper tinged rose outside. Large and continuous bloomer; mildly fragrant.

Editor McFarland. Pink. Shades from deep apricot to coral pink as bud opens.

E. G. Hill. Deep maroon. Warm, velvety color inside; very fragrant. Continuous bloomer.

Eldorado. Beautiful golden yellow. Fragrant.

Etoile de France. Velvety crimson with bright cerise center.

Etoile de Hollande. Bright red. Large, loose, semi-double flowers of great fragrance.

Glowing Carmine. Carmine. Large blooms freely produced.

Golden Dawn. Sunflower-yellow turning to lemon. Well-formed, fragrant. Profuse, continuous.

Golden Sastago. Rich buttercup yellow with, occasionally, lovely coppery sunset tints. Fragrant.

Grenoble. Scarlet red. Large, tall, hardy plant with luxuriant foliage.

Heinrich Wendland. Golden yellow. A glorious combination of golden yellow and Nasturtium red on reverse sides of the petals.

Hinrich Gaede. Orange yellow. Large flower flushed with Nasturtium red.

K. A. Viktoria. White. Soft, pearly white with lemon-yellow center. Very fragrant.

Lady Alice Stanley. Coral-pink outside of petals; light pink inside. Unusually free from disease.

Lady Ashtown. Soft, medium shade of pink; yellow at base of petals. Large, fully pointed.

Lady Hillingdon. Deep apricot yellow to orange. Long, pointed buds. Free-flowering.

Margaret McGredy. Scarlet, overlaid with orange. Changes to carmine rose as flower opens. Fragrant.

McGredy's Scarlet. Rose-red with scarlet sheen. Tall-growing.

Mme. Joseph Perraud. Nasturtium-buff with luminous shell pink petal edges. Long slender buds. Fragrant.

Mme. Jules Bouche. White, blush pink in center. Fragrant and always in bloom.

Mrs. E. P. Thom. Yellow. Very fine buds and open flowers of rich color. Delicate fragrance.

Mrs. P. S. DuPont. Yellow. Deep golden, semi-double flower of medium size. Fragrant.

Mrs. Sam McGredy. Scarlet-copper-orange, flushed red outside. Fragrant. Profuse, continuous bloomer. Very hardy.

Padre. Vivid, coppery-orange with yellow at base of petals. Blooms freely.

Pink Dawn. Deep rose opening to pink tinted with orange at base. Fragrant.

President Hoover. Maroon and orange two-tone. Vigorous, upright, free-blooming. Fragrant.

Radiance. Pink. Large flower of delicate cameo-pink. Blooms all season. Intensely fragrant.

Red Radiance. Red. Very large blooms of long-lasting quality and even color. Extremely fragrant. Tall-growing.

Soeur Therese. Daffodil yellow. Buds, silvery yellow; blooms have markings of mauve red. Fragrant.

The Doctor. Delicately colored pink. Enormous blooms. Sweet fragrance.

RELIABLE CLIMBING ROSES

These Large-flowered Hardy Climbers Need Little Care—All Varieties

\$1.15 each, \$12.50 per doz. except as noted

American Pillar. Crimson pink. Large flowers borne in large clusters on extremely vigorous plants.

Apricot Glow. Pink; coppery pink. Double blooms in abundant clusters. A brilliant new shade that appeals to all. \$1.25 each, \$12.50 per doz.

Blaze (Plant Pat. No. 10). Scarlet. Vividly shaded, double flowers. An improved variety of Paul's Scarlet. Takes on everblooming characteristics as plant matures. \$1.50 each, \$15.00 per doz.

Climbing American Beauty. Bright crimson. Extremely beautiful large buds and flowers. Rich perfume. Hardy.

Dr. Van Fleet. Delicate flesh pink. Large, fragrant blooms on fine long stems. Very vigorous habit with enormous quantities of flowers.

Emily Gray. Clear golden yellow. Semi-double flowers on strong growing plants with shiny, pointed foliage like Holly.

Gardenia. Yellow buds and creamy flowers. Semi-double. Vigorous and hardy anywhere. A good trailer.

King Midas (Plant Pat. No. 586). Deep yellow. Red-flushed buds opening to clear yellow. Longest blooming yellow climber. \$1.50 each.

Mary Wallace. Pink. Large, bright pink flowers with a luminous sheen. Vigorous grower with bright green foliage.

Mme. Gregoire Staechelin. Pink. Huge, fragrant, delicate pink flowers stained with crimson. One of the finest of all Climbers.

New Dawn (Plant Pat. No. 1). Delicate pink. Blooms intermittently all Summer and Fall. One of the hardiest climbers. \$2.00 each.

Paul's Scarlet. Red. Intensely red flowers borne in loose clusters. Most popular red Climber.

Silver Moon. White. Big, saucer-shaped, moon-white flowers with brilliant yellow centers. Handsome foliage.

FLORIBUNDAS Always in Bloom

Large-flowered—Polyantha-type Shrub Roses Very Hardy—Excellent for Bedding, Borders and Hedges

\$1.00 each, \$10.00 per doz. except as noted

Donald Prior (Plant Pat. No. 377). Red. Bright scarlet tinted with crimson. Semi-double and very free flowering. Fragrant. Continuous bloomer.

Else Poulsen. Pink. Medium size, semi-double flowers of lasting bright pink.

Floridora. Brilliant vermilion blooms. Prolific and continuous June to Fall.

Golden Salmon Supreme. Bright scarlet-salmon flowers tinged with yellow.

Gross an Aachen. Orange-red and yellow buds; light flesh-pink and salmon-yellow flowers fading lighter.

Improved Lafayette. Red. A fine bedding Rose of glowing vivid color. Flowers profusely.

Marionette (Plant Pat. No. 569). Creamy yellow unfolding to white. Fully double. Very hardy with light fragrance. \$1.25 each.

Mrs. R. M. Finch. White. Although pink when first open and then changing to blush, the bloom is white, large and showy.

Pink Gross an Aachen. Pink. Large, full flowers of deep salmon-rose. Hardy in semi-shade. Blooms prolifically.

Pink Jewel. Arbutus pink. Large, densely double flower shading to deep rose in center.

Pink Lafayette. Pink. Full, double blooms on dwarf, bushy plant. Constant bloomer.

Red Velvet. Vivid crimson. A recent, semi-double Rose which produces continuously.

Summer Snow (Plant Pat. No. 416). White. Beautiful large clusters; good for mass of color.

World's Fair (Plant Pat. No. 362). Scarlet. Dark velvety clusters of blooms virtually hide this bushy plant. Large, double flowers open to show a mass of golden stamens. \$1.25 each, \$12.50 per doz.

TREE ROSES

Roses in Tree or Standard Form, with their crowns of glorious color add an unusual note of beauty and distinction to your garden. Budded on sturdy stock, they bloom abundantly from June through frost. We offer your favorite varieties in Tree Roses, too.

\$5.00 each

Charlotte Armstrong (Plant Pat. No. 455). Blood red to cerise.

Countess Vandal (Plant Pat. No. 38). Bronze pink tinged with gold.

Christopher Stone. Velvety scarlet-crimson. **Crimson Glory** (Plant Pat. No. 105). Oxblood red to crimson.

Eclipse (Plant Pat. No. 172). Golden yellow.

K. A. Viktoria. White, yellow center.

Mirandy (Plant Pat. No. 632). Maroon-red.

Mrs. E. P. Thom. Rich yellow.

Peace (Plant Pat. No. 591). Creamy-yellow and pink.

Texas Centennial (Plant Pat. No. 565). Rose-red. Long buds freely produced.

MISCELLANEOUS ROSES

Skyrocket. Hardy, shrub-like in character. Bears deep pink blooms throughout the season. Often covered with blooms, buds, and seed pods at the same time. \$1.00 each.

Rosa Hugonis. Dainty, single yellow flowers on shrub-like plant. First to bloom in the early Spring. \$1.25 each.

TRAILING GROUND COVER ROSES

Excelsa. Red. Clusters of intense crimson-maroon flowers. Excellent trailing type. Healthy foliage. \$1.00 each, \$10.00 per doz.

Max Graf. Pink. Large single, shining pink flowers. Fine for banks and rocks. \$1.00 each, \$10.00 per doz.

Wichuraiana. White. Clusters of starry white flowers. Glossy leaves. One of the best for bank covers. \$1.00 each, \$10.00 per doz.

To Assist Our Customers

THE nurseries open at 7:30 in the morning. This enables us to have available digging crews to undertake and complete in one day even fairly large landscape jobs. This brings to a minimum the labor charges; less riding time is involved; plants are benefitted by transplanting the day after digging and only one day need be set aside by the home owner if he desires to be present. However, with the careful supervision of our planting foremen who follow closely the well-drawn, specific plans of the landscape architect, it is not even necessary for you to be present at the time of planting, although many people do enjoy watching the transformation.

An added feature of our early morning start is to have available sufficient sales personnel even at 7:30 to enable people to make purchases and arrange for deliveries while on their way to work in the morning. Here at the nurseries—as in other fields—the early shopper avoids the crowds and waiting to be served.

In order to extend our sales service as long as possible during the day, Rosedale is open until 6:00 p.m. each day except Sunday

so that it is convenient for those driving to the country in the late afternoon to stop at the nurseries and select personally the plants desired—and many can be taken along in the car. During the Spring planting season the nurseries are open from 9:00 a.m. to 5:00 p.m. on Sunday.

To facilitate getting out orders and planting jobs promptly, and give you better service, Rosedale's staff has been increased over the years, nursery roads have been improved, buildings renovated and a garage built complete with shop. From having one truck available for delivery when Mr. Taylor came to the nurseries, five trucks are now required to serve adequately. This has enabled us to extend our free, prompt delivery service beyond Westchester County.

Foreman Jimmy and Supt. Bill making a final double-check before going out on planting job.

Adequate transportation equipment is necessary for efficient service.

Early morning assignment of the day's work by Supt. of the Nurseries, Bill Herman.

During the Spring season coming to the nursery early in the day will help us give you faster service.

All-America Winner

CHARLOTTE ARMSTRONG

Plant Pat. No. 455

This fine Rose has won almost every national prize and award that any Rose can win including:

The famous John Cook Medal for "The best new Rose since 1935."

The Fuerstenberg Prize for "The best new Rose of American origin."

The Gold Medal of the American Rose Society.

The Gertrude Hubbard Gold Medal for "The best new American Rose disseminated in the last five years."

Our own experience leads us to recommend Charlotte Armstrong without qualification. Charlotte Armstrong is amazingly beautiful in all stages from the long, slender, rich carmine buds through the magnificent, brilliantly colored spectrum-red flowers to the still lovely full-blown blooms of rich cerise. Charlotte Armstrong needs no coddling and never stops blooming. It is strong, free blooming, vigorous and luxuriant. An all-climate Rose.

NEW DAWN EVERBLOOMING CLIMBER

BLAZE REPEAT-BLOOMING CLIMBER

FLOWERING SHRUBS

Shrubs are all-important in the planting of any grounds. Either in groups, borders, or individual specimens, they are equally beautiful. They are especially effective as a screen or border and marking boundaries where formal hedges are not desired. By careful selection you may have shrubs in blossom throughout the entire growing season. We do not crowd the plants growing in our nursery, which allows for the maximum development.

ACANTHOPANAX pentaphyllum (*Aralia pentaphylla*). An attractive, prickly shrub of dense growth. The lovely bright green leaves of tropical appearance make it desirable for a hedge, bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions. 2 to 3 ft.\$1.00

ALTHAEA (*Rose of Sharon*). A rather erect and tall-growing shrub of neat form. Blooms in late Summer, beginning in August and lasting usually until heavy frosts. Splendid plants in following varieties.

A. anemonaeflorus. Semi-double white with dark center. 2 to 3 ft.\$1.00

A. coelestis. Single, blue. An outstanding, newer form of a delightful shade. 2 to 3 ft.\$1.00

A. Double Pink. A nice clear shade of pink and a robust, erect-growing shrub. 2 to 3 ft.\$1.00

A. Double Red. An attractive, deep shade of red. Stronger grower than most named varieties. 2 to 3 ft.\$1.50

CALYCANTHUS
(Sweet Shrub)

BEAUTY BUSH (*Kolkwitzia*)

ALTHAEA COELESTIS

ENKIANTHUS

HYDRANGEA P. G.

A. Jeanne d'Arc.
Double white.
2 to 3 ft.\$1.00
3 to 4 ft. 1.50

A. Lady Stanley.
Double blush-white,
splashed with deep
pink. A very popular
color and one of
the best.
2 to 3 ft.\$1.00
3 to 4 ft. 1.50

A. paeoniflorus (*Paeony Althea*). Semi-double white with carmine center. 2 to 3 ft.\$1.00

DAPHNE SOMERSET

A semi-evergreen listed for convenience with Evergreen Shrubs on page 3.

ALTHAEA—Continued

- A. totus alba.** Finest single white of all.
2 to 3 ft. \$1.00
3 to 4 ft. 1.50

- AMELANCHIER canadensis.** Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June.
2 to 3 ft. \$1.25
3 to 4 ft. 2.00

- AMYGDALUS (Flowering Almond).** Profusion of deep pink, double rosettes on bare stems in late April and early May. Pink or white.
18 to 24 in. light. \$1.00
2 to 2½ ft. heavy. 1.50
2½ to 3 ft. 2.50

- ARONIA arbutifolia brilliantissima (Brilliant Chokeberry).** Handsome red Autumn foliage on a shrub of modest upright growth. Abundance of brilliant red berries, very attractive to birds.
2 to 3 ft. \$1.50

- BENZOIN aestivale (Spicebush).** Native shrub with fringed yellow flowers in early Spring. Leaves and twigs aromatic.
2 to 3 ft. \$1.00
3 to 4 ft. 1.25

- BERBERIS koreana (Korean Barberry).** A hardy species from Korea, large blotched leaves and upright, uniform growth. Gorgeous Fall coloring of most brilliant scarlet. Large clusters of red berries.
2 to 3 ft. \$1.00 each, \$90.00 per 100

- B. mentorensis (Plant Pat. No. 99).** A brand new variety of strong, rugged, upright habit. More beautiful than Japanese Barberry. Able to withstand heat and draught. Foliage darkest green and holds late in Fall. Highly recommended.
15 to 18 in. 75c. each, \$55.00 per 100
2 to 2½ ft. \$1.10 each, \$90.00 per 100
2½ to 3 ft. \$1.50 each, \$115.00 per 100
Heavy Specimens. \$3.50 to \$7.50 each

- B. thunbergi (Japanese Barberry).** Commonly used in hedges. Red berries in the Fall.
15 to 18 in. 60c. each, \$45.00 per 100
18 to 24 in. 75c. each, \$55.00 per 100

- B. thunbergi atropurpurea (Redleaf Barberry).** Very similar to *B. thunbergi* except for the ever-colorful leaves which are bright red in the Spring; purple-red in the Summer and blazing scarlet in Fall. Also berries heavily.
15 to 18 in. 75c. each, \$65.00 per 100
18 to 24 in. 90c. each, \$85.00 per 100

- BUDDLEIA, Charming (Butterflybush).** A glorious shrub, bearing throughout the late Summer and Autumn elegant sprays with lavender-pink blooms.
2 yr. \$0.90

- B. Dubonnet.** A glorious color—a counterpart of the popular French wine, Dubonnet. Erect, strong-stemmed.
2 yr. \$0.90

- B. Ile de France.** Fragrant, brilliant rosy purple flowers, suffused violet. Profuse bloomer. Large flower spikes.
2 yr. \$0.90

- B. White Bouquet (New White Butterflybush).** Long, lovely, fragrant, glistening white sprays like White Lilacs all Summer and Fall, on graceful, medium-sized bush that seldom exceeds 5 to 6 ft. in height. Sweetly fragrant and attractive to butterflies. This is something distinctly different in Buddleias and is a definite contribution to Horticulture. You will want several in your garden this year. Long lasting cut flowers for the house and just as beautiful in the garden.
2 yr. \$0.90

- CALLICARPA purpurea (Beautyberry).** An attractive shrub, growing about 3 to 4 ft. tall, bearing an abundance of small, pink flowers in August, followed by innumerable glittering, lavender blue berries in dense clusters along the branches.
18 to 24 in. \$1.00
2 to 3 ft. 1.50

FLOWERING SHRUBS—Continued

- CALYCANTHUS floridus (Sweet Shrub).** An old-fashioned shrub with chocolate-colored blossoms. Leaves and bark have a spicy fragrance. A splendid bush.
2 to 3 ft. \$1.00
3 to 4 ft. 1.50
4 to 5 ft. 2.50
5 to 6 ft. 3.50

- CHIONANTHUS virginicus (White Fringetree).** One of the most striking native small trees or shrubs because of its handsome glossy Magnolia-like leaves, which turn a bright golden yellow in Autumn. Produces masses of loose panicles of feathery petaled snow-white flowers in Midsummer.
3 to 4 ft. \$2.00
4 to 5 ft. 2.75

- CLETHRA alnifolia (Sweet Pepperbush).** An upright, slow-growing shrub with spikes of fragrant white flowers in late Summer. Fine for naturalizing.
2 to 3 ft. \$1.00
3 to 4 ft. 1.50

- COLUTEA arborescens (Common Bladder-senna).** Showy display of clusters of bright yellow pea flowers with red markings, which bloom from May into Midsummer. Fruits are very decorative pinkish-green bladder-like pods from which plant obtains its common name.
3 to 4 ft. \$1.50

- CYDONIA japonica (Flowering Quince).** Early blooming shrub with shiny green foliage and deep crimson flowers.
18 to 24 in. \$1.00
2 to 3 ft. 1.25

- C. Coral Pink.** Very prostrate in growth. Excellent for bank plantings.
18 to 24 in. spread, extra heavy. \$1.50
3 ft. spread, extra heavy. 2.00

- C. Pink.** Dainty shell-pink. Upright form.
18 to 24 in. \$1.00

- C. Boule de Feu.** Fire-red flowers in profusion.
18 to 24 in. \$1.00

- C. superba coralina.** An excellent pink flowering variety of Japanese Quince which is much admired.
18 to 24 in. \$1.75
2 to 3 ft. 2.50

- DEUTZIA gracilis (Slender Deutzia).** A dwarf variety with small, white flowers that completely cover it in May.
12 to 15 in. \$0.75

- D. gracilis rosea (Rose-panicked Deutzia).** Pink form of *D. gracilis*. Branches of this pink *Deutzia* are very graceful.
15 to 18 in. \$0.75
18 to 24 in. 1.00

BUDDLEIA (White Bouquet)

- D. scabra, Pride of Rochester.** White flowers borne in July in great profusion. A handsome shrub of vigorous habit. Attains about 8 ft. in height.
2 to 3 ft. \$0.75
3 to 4 ft. 1.25
4 to 5 ft. 2.00

- ELAEAGNUS angustifolia (Russian Olive).** A spreading bush with silvery-gray bark. Fragrant yellow flowers followed by orange fruit. It is fine for show, hedgerow or screen planting.
4 to 5 ft. \$2.50

- ENKIANTHUS campanulatus (Redvein Enkianthus).** Without artificial shaping, will develop into a handsome, large shrub, well clothed with clean foliage which turns brilliant red in Fall. Bunches of nodding flowers are borne on the whorled branches and these red-veined white cups are quite unlike any other flower.
3 to 4 ft. \$6.00
4 to 5 ft. 7.50

CLETHRA ALNIFOLIA

- EUONYMUS alatus (Corkbark Euonymus).** Particularly striking shrub, especially in Autumn and Winter, with corky wings and scarlet Fall foliage and berries. Blooms white.
2 to 3 ft. \$1.50

- E. alatus compacta.** Just as beautiful and much neater and slower in growth than the original. A grand specimen or may be used in foundation planting.
18 to 24 in. \$1.75
2 to 3 ft. 2.50

- FORSYTHIA spectabilis (Showy Border Forsythia).** By far the best of the Forsythias in color, size of flower and profusion of bloom. Use a bold group for early Spring effect.
2 to 3 ft. \$0.75
3 to 4 ft. 1.00
4 to 5 ft. 1.75
4 to 5 ft. extra heavy. 2.50

- HAMAMELIS virginiana (Witch-hazel).** Irregular spreading shrub with large, oval leaves. Blooms with small yellow flowers close to stem in November. Thrives on deep shade or full sun.
3 to 4 ft. \$1.50
4 to 5 ft. 2.50

- HYDRANGEA arborescens (Summer Hydrangea).** Large, pure white blooms in July and August.
3 to 4 ft. \$1.50

- H. hortensis var. otaksa (Bigleaf Hydrangea).** Sometimes called the greenhouse Hydrangea. Bushy growth; flowers profusely in pink or blue shades according to soil acidity.
3 yr. \$1.75

- H. paniculata grandiflora (Peegee Hydrangea).** The best known Hydrangea with immense, conical, pink and white blooms from July to September.
2 to 3 ft. \$1.00
3 to 4 ft. 1.50

FLOWERING SHRUBS—Continued

HYPERICUM prolificum (*St. Johnswort*). A showy shrub of stiff, dense habit. Grows to 3 ft. Brilliant yellow flowers from July to September.
2 to 3 ft.\$1.25

ILEX verticillata (*Winterberry*). Berry plants. A fine, native shrub, carrying its bright red berries practically all Winter. Upright habit with black bark and clean, attractive foliage. Plant in groups to insure production of berries.
18 to 24 in.\$1.00

ITEA virginica (*Sweetspire*). Drooping clusters of white fragrant flowers in July. Upright shrub 3 to 8 ft. tall. Will stand semishade and moist spots.
3 to 4 ft.\$1.00

KERRIA japonica pleniflora. A slender, green branched shrub with double, bright yellow flowers. Very attractive and unusual.
12 to 18 in.\$1.00
18 to 24 in.1.50

KOLKWTZIA amabilis (*Beautybush*). A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly.
2 to 3 ft.\$1.50
3 to 4 ft.2.00
4 to 5 ft. heavy.5.00

LIGUSTRUM amurense (*Amur Privet*). Tall-growing, upright shrub with lustrous leaves. Good hedge plant for quick-growing screen as plants will attain 15 ft. in height.
2 to 3 ft.\$2.50 per doz., \$20.00 per 100

L. ibolium (*Ibolium Privet*). Very bushy and hardy variety possessing glossy green leaves.
2 to 3 ft.\$2.00 per doz., \$16.00 per 100

L. ibota (*Ibota Privet*). Graceful, arching branches with small, white flowers in clusters. Makes a splendid informal hedge. Exceptionally hardy.
2 to 3 ft.\$0.60
3 to 4 ft.85
4 to 5 ft.1.50
5 to 6 ft.2.50

L. ovalifolium (*California Privet*). The form most commonly used for hedges.
2 to 3 ft.\$2.50 per doz., \$20.00 per 100
3 to 4 ft.\$3.00 per doz., \$25.00 per 100

L. regelianum (*Regel Privet*). A low spreading form, almost horizontal.
2 to 3 ft.\$0.85
3 to 4 ft.1.25

LONICERA tartarica (*Upright Honeysuckle*). Finest in habit of Bush Honeysuckles. A rapid grower, attaining 10 to 12 ft. in height. May be had in either Pink or Whiteflowering varieties.
2 to 3 ft.\$1.00

L. zabelli. A new, very red shrub Honeysuckle of medium growth. Bears an abundance of red fruit and blossoms are bright and in great profusion.
2 to 3 ft.\$1.25
3 to 4 ft.1.75

PHILADELPHUS coronarius (*Sweet Mock-orange*). Extremely fragrant variety of Mock-orange. Blooms white in May and June.
2 to 3 ft.\$1.00
3 to 4 ft.1.50
4 to 5 ft.2.50
5 to 6 ft.3.50

P. Minnesota Snowflake (Plant Patent No. 538). A grand addition to the Philadelphus family which produces a profusion of large, very double, pure white flowers of some fragrance. Shrub grows bushy and shapely and in this respect very superior to Philadelphus Virginal.
2 to 3 ft.\$1.50
3 to 4 ft.2.00

P. virginialis. (*Double Mockorange*). Fine, double-flowering variety which blooms profusely. Fragrant.
18 to 24 in.\$1.25
2 to 3 ft.1.50
3 to 4 ft.2.00

RHODODTYPOS kerrioides (*Jetbead*). Small, shapely shrub, bearing white flowers and black berries. Foliage handsome. Good for shade.
2 to 3 ft.\$1.25

SALIX caprea (*Pussy Willow*). Desirable for early Spring effects and will do well in dry locations as well as wet.
2 to 3 ft.\$0.75
3 to 4 ft.1.00

SORBARIA aitchisoni (*Falsespirea*). Brilliant green foliage and red stems make this extremely handsome. Clusters of foamy white flowers in late Midsummer. Grows to 6 or 8 ft.
2 to 3 ft.\$1.50

SPIRAEA, Anthony Waterer (*Dwarf Spirea*). A small, compact shrub with pink flowers in July.
15 to 18 in.\$0.90
18 to 24 in.1.25

S. prunifolia (*True Bridalwreath*). Long racemes of pure white flowers in May. Small, glossy foliage.
18 to 24 in.\$1.00
2 to 3 ft.1.50

S. thunbergi (*Thunberg Spirea*). Semi-dwarf sort with very fine foliage and small white flowers. Dense.
18 to 24 in.\$0.75
2 to 3 ft.1.00
3 to 4 ft.1.50

S. vanhouttei. Ever popular variety, producing an abundance of small white flowers in clusters.
2 to 3 ft.\$0.65
3 to 4 ft.1.00
3 to 4 ft. heavy.1.50

SYRINGA • Lilac

Our stock of these favorite flowering plants is very complete in both common and French Hybrid varieties. We have a quantity of plants much larger than are listed here and will be pleased to receive your inquiries or a personal inspection.

S. persica (*Persian Lilac*). A graceful shrub with slender branches and single pale lilac flowers.
2 to 3 ft.\$1.50

S. vulgaris (*Common Purple Lilac*). Considered by many as fine as any hybrid. Bears large clusters of fragrant purple flowers in May.
2 to 3 ft.\$1.50
3 to 4 ft.2.50
4 to 5 ft.6.00
5 to 6 ft.10.00
5 to 6 ft. extra heavy.15.00

Larger sizes priced on selection

S. vulgaris alba (*Common White Lilac*). Fragrant single white flowers.
2 to 3 ft.\$1.50
3 to 4 ft.2.50
4 to 5 ft.5.00
5 to 6 ft.7.50

Living Plants

THE IDEAL GIFT

HOW often have you wanted to give someone an all-round gift—one of lasting beauty, one that will increase in value, one that will bring real enjoyment.

We can help you in making just such a gift to anyone in the U.S.A. by using the Gift Certificate plan of the American Association of Nurserymen. This gift certificate is redeemable at any member nursery from coast to coast—at any one of over 1100 nurseries.

This new plan is the ideal solution to your gift dilemmas. You have no expensive shipping costs. No precious time is lost—especially in those last-minute situations.

You simply give or send us your order for a gift certificate for any amount you wish to give and we immediately give or send you the gift certificate to forward.* Or we can send it direct to the recipient if you prefer. Be sure to enclose your check or money order with your order. For your records you receive a receipt—a copy of the certificate issued.

A plant or tree is suitable for any occasion—always in good taste,

*Minimum Gift Certificate \$5.00 and all certificates are redeemable any day up to one year from date of issue.

always welcome. What could be more appreciated by a home owner than plants or trees, a permanent reminder of your generosity and thoughtfulness. And the Recipient has the added fun of going to a nursery to select the type of plant material he wants most—glorious flowering shrubs or trees, ever-welcome shade trees, rich evergreens, delicious fruits, etc. Everyone enjoys visiting a nursery.

Even a child is delighted with a plant or tree he can call his very own to care for and to watch grow,

These A. A. N. Gift Certificates are particularly fitting for Birthdays—Weddings—Anniversaries—Mother's Day—Father's Day—Easter—Christmas—in fact, all holidays.

Anniversary Special French Hybrid Lilac Collection

Five of the handsomest double and single flowered varieties, as illustrated. Bask in the delightful fragrance and beauty of heavy-clustered blooms. A harmony of color for your shrub border. 2 to 3 ft. high, all set with flower buds—5 FOR \$9.00 (Regular Value \$11.25)

This same collection in a larger size of plant—
3 to 4 ft. high—5 FOR \$12.00 (Regular Value \$15.00)

HYBRID LILACS

Almost everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow and bloom when they are even younger. The flowers are relatively huge and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. Here is a list of favorite varieties which are so exquisitely lovely and different that you will want them all in the border as specimens.

2 to 3 feet.....	\$2.25
3 to 4 feet.....	3.00
4 to 5 feet.....	\$4.00 to \$6.00
5 to 6 feet.....	7.50 to 12.00

*Larger sizes priced on application
Some specimens in different colors*

FRENCH HYBRID LILAC VARIETIES

Belle de Nancy. Double satiny rose. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.
Chas. Joly. Purple red. One of the best double dark reds. 18 to 24 in., 2 to 3 ft.

Charles X. Single, rich purple red. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

Emile Gentile. Double, cobalt blue. 3 to 4 ft.

Ellen Willmott. Large, double, white. 18 to 24 in., 2 to 3 ft., 3 to 4 ft.

Hugo Koster. Large, soft lilac. Dwarf, bushy growth. 2 to 3 ft.

Katherine Havemeyer. Immense double trusses. Mauve pink. 4 to 5 ft.

Lucie Baltet. A fine single, coppery-old rose, entirely unlike any other Lilac in color. 2 to 3 ft.

Marie Le Graye. Single, white. 2 to 3 ft., 3 to 4 ft.

Mme. Casimir Perier. Double, creamy white. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

Mme. Lemoine. Double white. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft., 6 to 7 ft.

President Grevy. Double, blue. 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft.

President Poincare. A very large, double flowering, purplish-red on outside, turning to lavender-blue as they open. 2 to 3 ft., 3 to 4 ft.

Reamur. Single, subdued rose-red. 3 to 4 ft., 4 to 5 ft.

Souv. de Ludwig Spaeth. Single, reddish purple. 18 to 24 in., 2 to 3 ft., 3 to 4 ft., 4 to 5 ft.

STEPHANANDRA flexuosa (*Lace Shrub*). Splendid shrub of erect habit, with cut foliage. Striking at all seasons.
 2 to 3 ft.....\$1.00 | 3 ft.....\$1.50

SYMPHORICARPOS chenaulti. Pink-berried form of Coralberry. Grows compact and has a better than average foliage.
 2 to 3 ft.....\$0.75

S. racemosus (*Snowberry*). Pink flowers and white berries in profusion. Thrives in shade and is excellent for hillside.
 2 to 3 ft.....\$0.75 | 3 to 4 ft.....\$1.00

S. vulgaris (*Coralberry*). Bears clusters of small red berries which remain most of the Winter.
 2 to 3 ft.....\$0.75 | 3 to 4 ft.....\$1.00

VITEX macrophylla. A graceful shrub with attractive spikes of lovely lavender blue flowers. Blooms profusely from July to frost. Dies back in Winter, similar to Buddleia.
 3 yr. heavy.....\$1.75

**PHILADELPHUS MINNESOTA
 SNOWFLAKE** (New Double
 Mockorange)

**WEIGELA
 FEERIE**

is one of the most delightful pink shrubs flowering in June. The shade of pink is delicate and pleasing; the growth of plant is sturdy and foliage good. We highly recommend it.

**WEIGELA
 FEERIE**

**PHILADELPHUS
 MINNESOTA SNOWFLAKE**
 (New Double Mockorange)

Undoubtedly the most valuable ornamental introduction of the past ten years.

A seedling developed from *Philadelphus virginianus*—long a favorite. The pure white, very double flowers of Minnesota Snowflake bloom in June and July. Every blossom has several layers of petals (*see picture*) Very fragrant—perfectly hardy, low-branched and bushy. It attains about 8 feet in height, but may be kept smaller and still bloom profusely.

The finest Mockorange in every respect.

**VIBURNUM OPULUS
 Highbush Cranberry**

VIBURNUM BURKWOODI (Fragrant Viburnum)

WEIGELA BRISTOL RUBY

VIBURNUMS

Probably comprise more desirable varieties for landscape use than any other family of Shrubs.

- V. burkwoodii.** Often called an improved *Viburnum carlesii*, differing in growth, foliage and time of bloom which is earlier. Growth is vigorous and foliage glossy. Flowers creamy white and very fragrant.
- | | |
|------------------|--------|
| 18 to 24 in..... | \$3.50 |
| 2 to 2½ ft..... | 4.50 |

- V. carlesii** (*Fragrant Viburnum*). Most fragrant of all flowering shrubs. A blossom of this delightful shrub will scent an entire room. Fairly dwarf and slow in growth it eventually attains 5 to 6 ft. in height. Blooms are creamy white and borne in considerable profusion. Very scarce.
- | | |
|------------------|--------|
| 15 to 18 in..... | \$2.50 |
| 18 to 24 in..... | 3.50 |
| 2 to 2½ ft..... | 4.50 |
| 2½ to 3 ft..... | 6.00 |

- V. cassinoides** (*Witherod*). Large clusters of white flowers in June precede green berries which change to pink and finally blue-black. Leathery leaves add their touch of crimson and purple in Fall. An exceptionally clean, neat shrub which does well in moist places.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$1.25 |
|----------------|--------|

- V. dentatum** (*Arrowwood*). Bushy shrub with white flowers and blue berries. Fine for shade.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$1.00 |
| 3 to 4 ft..... | 1.50 |
| 4 to 5 ft..... | 2.50 |
| 5 to 6 ft..... | 5.00 |

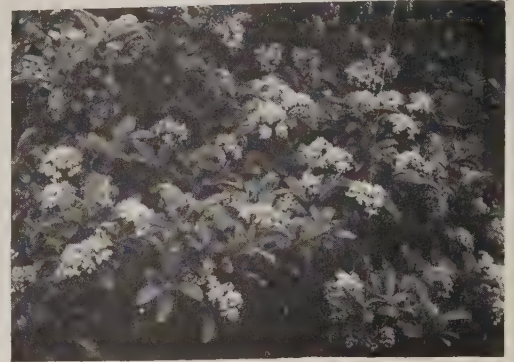

- V. dilatatum** (*Linden Viburnum*). Finest of the Viburnums. White flowers followed by immense clusters of bright red berries which turn the entire shrub red.
- | | |
|-----------------------|--------|
| 2 to 3 ft..... | \$1.50 |
| 3 to 4 ft..... | 2.50 |
| 4 to 5 ft..... | 4.00 |
| 5 to 6 ft..... | 6.00 |
| 6 ft. very heavy..... | 8.00 |

- V. opulus** (*Highbush Cranberry*). White flowers, followed by Cranberry-like fruit which persists all Winter. Rapid grower.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$1.00 |
| 4 to 5 ft..... | 2.50 |

- V. sieboldii.** Vigorous shrub, attaining great size. Berries pink, changing to black. Large, deep green, leathery leaves.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$1.25 |
| 3 to 4 ft..... | 2.00 |
| 4 to 5 ft..... | 3.50 |

- V. theiferum.** Large compound white flowers followed by huge clusters of brilliant scarlet berries. Probably the most showy of all Viburnums when in berry.
- | | |
|----------------|--------|
| 3 to 4 ft..... | \$1.50 |
| 4 to 5 ft..... | 2.50 |
| 5 to 6 ft..... | 5.00 |

- V. tomentosum** (*Single Japanese Snowball*). White flowers in profusion, followed by red berries. Foliage red in Fall.
- | | |
|-----------------------|--------|
| 18 to 24 in..... | \$1.00 |
| 2 to 3 ft..... | 1.25 |
| 3 to 4 ft..... | 1.75 |
| 3 to 4 ft. heavy..... | 2.50 |
| 4 to 5 ft..... | 3.50 |

VIBURNUM SIEBOLDI

- WEIGELA, Bristol Ruby** (*New*) (*Improved Eva Rathke*). Bristol Ruby is a better Eva Rathke. Hardier and more vigorous, developing to a shapely shrub. Color is a soft ruby red shading to garnet crimson.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$1.50 |
| 3 to 4 ft..... | 2.00 |

- W. candida.** Sometimes called Snow Weigela. Creamy-white trumpet-like flowers in early June.
- | | |
|----------------|--------|
| 3 to 4 ft..... | \$1.50 |
|----------------|--------|

- W. Eva Rathke.** Slower growing than other Weigelas. Dark crimson flowers in profusion. Generally a small shrub.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$1.00 |
|----------------|--------|

- W. Feerie.** A fine pink Weigela, less coarse than other varieties. This graceful shrub produces an enormous profusion of charming flowers a week or so earlier than Rosea. A most delightful soft pink.
- | | |
|----------------|--------|
| 3 to 4 ft..... | \$2.00 |
| 4 to 5 ft..... | 2.50 |

- W. floribunda.** Extremely vigorous bright crimson flowers. Generally a large shrub.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$0.75 |
| 3 to 4 ft..... | 1.00 |
| 4 to 5 ft..... | 1.50 |

- W. Gustav Mallot.** A fine red variety of much sturdier growth than Eva Rathke and growing somewhat larger. Highly recommended.
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$1.50 |
| 3 to 4 ft..... | 2.00 |

- W. rosea.** Medium growth with rose-colored flowers in June.
- | | |

| 2 to 3 ft..... | \$0.75 |
| 3 to 4 ft..... | 1.00 |

Summer Flowering Shrub Collection

These shrubs are especially selected for Summer blooms. If your garden lacks interest after Spring blooms have passed we suggest you add these shrubs. Ideal for Summer cottage. Sold as a group.

Color	Time of Bloom	Size	
1 Buddleia. Violet.....	July-August	2 year	\$0.90
1 Althea. White, pink center.....	August	3-4 ft.	1.50
1 Callicarpa. Pink, violet berries.....	June	2-3 ft.	1.50
1 Hydrangea arborescens. White.....	June-July	3-4 ft.	1.50
1 Sorbaria aitchisoni. White.....	June-August	2-3 ft.	1.50
1 Spirea Anthony Waterer. Pink.....	July-August	18-24 in.	1.25
1 Vitex macrophylla. Blue.....	July to frost	3 year	1.75
1 Hypericum prolificum. Yellow.....	July-Sept.	2-3 ft.	1.25

Catalog Value.....\$11.15

8 SUMMER FLOWERING SHRUBS AS A GROUP \$10.00

New Shrub Collection

A collection of the newer improved varieties of shrubs. Everyone a valuable color addition to your garden. Every planting should include them. Sold as a group.

1 Althea coelestis.	2-3 ft.	\$1.00
1 Aronia brilliantissima.	2-3 ft.	1.50
1 Daphne Somerset.	15-18 in.	1.50
1 Philadelphus Minnesota Snowflake.	2-3 ft.	1.50
1 Viburnum burkwoodii.	18-24 in.	3.50
1 Weigela Feerie.	3-4 ft.	2.00
1 Weigela Bristol Ruby.	2-3 ft.	1.50

Catalog Value.....\$12.50

7 NEW SHRUBS AS A GROUP \$10.00

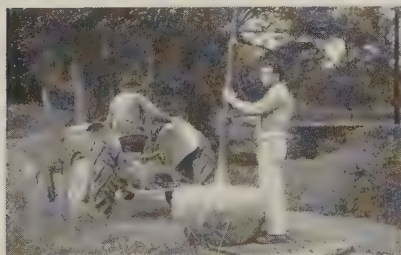

The Experience of Our Men

ONLY a small specially trained group of men who can answer your horticultural questions and help solve your planting problems comprise the sales force. The other men you see about the nursery are engaged either in nursery maintenance—also of customer value—or in digging material on orders taken previously. However, these men are equally skilled in their phases of nursery operations. These skills are acquired by training and years of experience. Rosedale's workers are—in the vast majority of instances—year-round employees. Thus they learn about all stages of plant growth.

Just for example—do you know when plants should be dug with a ball of earth and when not? Do you know how close to the main stem, the roots should be cut so as to stimulate and not injure future growth? Do you know how large a ball of earth should be dug so as to protect the roots and yet not make the plant too heavy to handle easily?

Our nursery workers know—it is an additional assurance of your receiving plants in good condition—and, incidentally, unnecessary weight on a plant increases plant costs unnecessarily.

In preparing an order for delivery to a job where we are to do the planting—such as the ones pictured here—thoughtful planning saves time and prevents wasted effort and even damaged nursery stock. Sufficient time must be allowed to get out all material safely and undamaged.

Top
Three diggers taking the first steps of getting out a 3½ in. caliper Honeylocust Tree. Note wide spacing of trees for maximum growth.

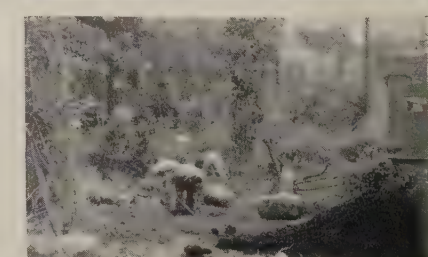

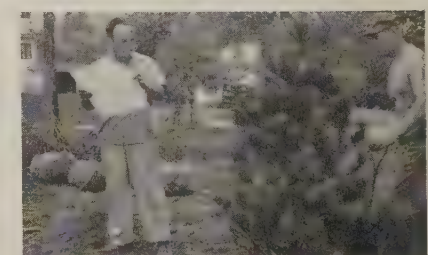

Center
This same tree expertly laced to insure safe transplanting, being guided on the stone boat by Tucker. Ken Miller on the tractor heads for the loading platform.

Bottom
Raking land after clearing away a wilderness, preparatory to planting a landscape job.

Top
Unloading of truck and placing of plant material.

Center
"Gimmy" Gimenez, planting foreman with Rosedale for seven years with the exception of war service, studies plan to be sure the tree is placed where it should be in relation to the other plants.

Bottom
Planting the new material—at the same time removing the hidden rocks and buried debris. Liberal applications of humus are applied to permanently improve the soil.

Hardy Climbing Vines and Ground Covers

Vines are often slow to start growth and reluctant to climb. To aid you in establishing a quick vine growth we have preplanted most of the varieties listed below to stimulate quick growth. They are already growing in paper pots and may be planted without a setback. Many will climb 6 to 10 feet the first season.

AKEBIA quinata. A very graceful rapid growing vine. The foliage is extremely attractive and the rosy purple flowers in May are followed by ornamental fruit.

2 yr. 90c. each, \$10.00 per doz.

AMPELOPSIS lowi. A small edition of Boston Ivy, much more delicate in every respect. The small leaves are crowded on the shoot and often curiously twisted. Useful for low walls.

2 yr. from pots. \$1.00 each

A. tricuspidata (veitchii) (Boston Ivy). Closely clinging vine with medium sized foliage turning red in Autumn. Its rapid growth and closely clinging habit make it most popular for brick, stone or stucco walls.

2 yr. 90c. each, \$10.00 per doz.

BIGNONIA radicans (Trumpet Creeper). Orange-scarlet, trumpet-shaped flowers in clusters from July to September. Rapid grower but does not flower young. Must be supported.

2 yr. \$1.00 each, \$10.00 per doz.

B. Mme. Galen. An especially fine variety similar to above but with very large, striking salmon-red trumpets. We highly recommend this decorative vine.

2 yr. \$1.25 each

CELASTRUS orbiculatus (Oriental Bittersweet). Well known native Bittersweet. Splendid for fences and rocks or will make a shrub. The Oriental variety differs from the native only that it bears more berries.

2 to 3 ft. \$1.00 each, \$10.00 per doz.

CLEMATIS jackmani (Purple Clematis). Large purple single flowers from June to August. Striking.

1 yr. pot grown. . 90c. each, \$10.00 per doz.

C. paniculata (Old-fashioned Clematis). The sweet September fragrance of this old favorite indicates its presence long before the flower-laden-vine is seen, and the feathery seeds are also decorative. Belongs to the home.

2 yr. 75c. each, \$7.50 per doz.

3 yr. heavy potted. \$1.25 each

EUONYMUS radicans. Self-clinging evergreen vine. Especially good for covering low stone walls and can be used for underplanting of evergreens.

12 to 18 in. \$1.00 each, \$10.00 per doz.

E. erecta. A shrubby vine useful for foreground foundation planting or ground cover. Completely evergreen.

12 to 15 in. \$1.25

15 to 18 in. 1.75

18 to 24 in. 2.50

E. radicans vegetus (Evergreen Bittersweet). Low spreading shrub, but will climb high on masonry walls.

12 to 15 in. 75c. each, \$7.50 per doz.

15 to 18 in. \$1.25 each

HEDERA helix (English Ivy). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover plant in mass under trees or other shady or semi-shady locations.

3 in. pots. 40c. each, \$4.00 per doz.

4 in. pots, heavy plants

75c. each, \$7.50 per doz.

LONICERA japonica halliana (Honeysuckle). Semi-evergreen ground cover with fragrant yellow and white flowers. Indispensable for covering banks. Will hold soil in place and permanently cover barren areas.

2 yr. 35c. each, \$3.50 per doz., \$25.00 per 100

PACHYSANDRA terminalis (Japanese Spurge). Most popular evergreen ground cover plant. Spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely.

Rooted Cuttings

\$5.00 per 100, \$45.00 per 1000

2 1/2 in. pots. \$15.00 per 100

Enhance the appearance of walls by the judicious use of vines

POLYGONUM auberti (Chinese Fleecyvine). Slender, vigorous vine for arbor, trellis, or fence. Curious silver-white flowers in tremendous profusion.

2 yr. field grown. 90c. each, \$10.00 per doz.

VINCA minor (Myrtle). Dense evergreen ground cover. Small, dark, green leaves on slender trailing branches. Blue flowers in late Spring.

2 yr. field-grown

\$2.50 per doz., \$20.00 per 100

V. Bowles Var. Similar to V. minor in form and evergreen habit of growth. Lavender-blue flowers all Summer.

2-yr. field-grown

\$3.50 per doz., \$35.00 per 100

WISTERIA sinensis (Chinese Wisteria). Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. White and purple.

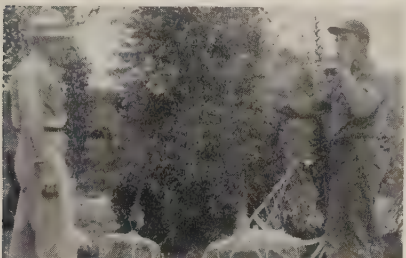

2 yr. \$1.50 each

3 yr. 2.00 each

4 yr. 2.50 each

5 yr. 4.00 each

XX Heavy. 7.50 each

Assures a Successful Planting

ORDINARILY most orders are dug immediately before delivery but at certain seasons, after the plants have started their growth, they can be transplanted safely by using the "hardening" method—a process to inure stock to too sudden changes. This is a regular practice at Rosedale—entirely safe for the plants and a boon to those unable to do their planting during the early Spring or very late Fall—the dormant periods of the plants.

To harden plants, they are dug several days in advance of delivery. They are placed in cool shade where they are kept thoroughly watered until sufficiently "hardened" and ready for delivery. The plant is sprayed with Dowax to retard transpiration—excessive moisture loss. As a result of the hardening treatment, the new growth on the plants does not wilt after transplanting.

Material is hauled to the loading platform by hand truck, truck or by stoneboat and tractor, depending upon the plants dug. Rosedale's main loading platform has been moved recently to a less congested area to relieve traffic. The old loading platform near the lath affords additional parking space for customers. At the main platform as the plants are put on the truck, the foreman makes a final check against his order showing the material required. We exercise every care to see that all the plants ordered are delivered and that they are not harmed in transit.

Top
Nursery stock collected for "hardening" before delivering.

Center
Two nursery workers loading a small B & B tree on a hand-truck to take to loading platform for tomorrow's planting job.

Bottom
Rolf Heitmann, trained in Massachusetts State College, and planting foreman, supervises the assembling of material for his planting job.

FRUITS

We offer a time-tested list of fruit trees and bush fruits. Every planting should include at least a few of these. Many are as beautiful in blossom as the finest ornamental plants and all bear fruit which is incomparably better in flavor than that which is purchased in the markets.

SCHMIDT'S BIGARREAU CHERRIES

STANLEY PLUMS

We are offering principally two-year old stock—the finest size for planting and in varieties of known hardiness and superior flavor.

RED DELICIOUS APPLE

BEURRE BOSCH
PEAR

You will find the large fruits such as Apple and Peach, will provide you with as much color and beauty during the flowering season as any of the finest flowering trees and at the same time, will provide luscious fruit later in the season.

GOLDEN JUBILEE PEACH

APPLES

One of the most satisfactory of all lawn trees is a well-proportioned Apple tree, attractive at all times and really gorgeous when in full bloom. It follows with a generous crop of one of the finest of all fruits.

BEARING AGE APPLE TREES

Again this year we are able to offer a small quantity of landscape-size Apples. These trees are 2 inches or over in caliper, 7 years old, and have been rigidly pruned and cared for and are ready to bear.

Personal selection at the nurseries only

Two-Year Old Apple Trees

The best size to plant for a good sized orchard but will take 4 years or more to bear. This stock is propagated from bearing orchards of superior strains.

Selected No. 1 Grade. 1 1/16 inch caliper. 5 to 7 feet
Each \$1.75, 3 for \$5.00

Baldwin. Well-known red. Winter Apple. Keeps well, fine flavor, juicy, crisp. Excellent for cooking and eating.

Cortland. An improved McIntosh type. Winter Apple with McIntosh flavor and quality but with tendency to cling to tree more than McIntosh. All-purpose Apple.

Delicious, Red. Large, dark red. Winter Apple. Crisp, fine flavor. Good for cooking and eating.

Delicious, Yellow. Golden yellow. Winter Apple. Firm, juicy. Good for cooking and eating.

Gravenstein, Red. Crisp, tart-flavored, solid dark red Autumn Apple. Popular for eating and cooking.

INDIAN SUMMER
RASPBERRY

CACO GRAPE

ALFRED BLACKBERRY

STANLEY BLUEBERRY

APPLES—Continued

- McIntosh, Red.** Leading commercial variety for New York State. Attractive red Winter Apple of white, tender, juicy flesh. Fine eating and cooking. Bears fairly young.
- Northern Spy.** Large bright red Winter Apple of unsurpassed flavor. Bears well but matures slowly. Keeps very well. Excellent for cooking and eating.
- Red Astrachan.** Crimson. Summer Apple. An old favorite for cooking and eating.
- Red Spy.** Bright red. Winter Apple. A more recent development of the Northern Spy, good for cooking and eating.
- R. I. Greening.** Large yellow-green Autumn Apple unexcelled for cooking. Bears well, keeps well.
- Yellow Transparent.** Pale yellow. Summer Apple. Cooking.

CHERRIES

- 1-year old trees, 11/16 inch caliper, 4 to 6 feet Top Grade, \$2.50 each, 3 for \$7.00**
- Black Tartarian.** The favorite large, black sweet Cherry. Juicy and very rich. Early ripening—about late June.
- Governor Wood.** Large, light yellow and red sweet Cherry. Excellent for home use. Very productive. June.
- Montmorency.** The best sour Cherry. Productive, hardy and of excellent flavor. Ripens early, about July.
- Schmidt's Bigarreau.** Very large, purplish-red sweet Cherry of splendid flavor. Early—about July.

CRABAPPLE

- Selected, No. 1 Grade, 11/16 inch caliper, 5 to 7 feet—\$1.75 each, 3 for \$5.00**
- Dolgo.** Handsome Red Crabapple in early September. Hardy, productive, juicy. Superb for ruby-red jelly, pickling, and exceptionally good for cider.
- Hyslop.** Brilliantly colored purplish-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo.

PEACHES

- Selected 1-year Budded Trees, 9/16 inch caliper, 3 to 5 feet—\$1.50 each, 3 for \$4.00**
- Belle of Georgia.** Well-known white freestone Peach ripening late August. A rich creamy Peach with red blush.
- Crawford.** Large, yellow freestone Peach. One of the best of the late varieties, ripening about early September.
- Elberta.** Most popular and best known yellow Peach. Handles well, of good flavor, juicy and freestone. Ripens early September.
- Golden Jubilee.** Extremely popular, hardy new Peach. Large, golden-yellow, red-blushed fruit. Freestone. Best early yellow Peach, ripening about mid-August.
- Hale-Haven.** Beautifully colored yellow Freestone. Very hardy and vigorous. Ripens about ten days ahead of Elberta.
- Extra, large size Peaches available in varieties **ELBERTA** and **GOLDEN JUBILEE** only. **\$2.50 each.**

PEARS

- Selected No. 1 Grade, 2-year old trees, 11/16 inch caliper—\$2.25 each, 3 for \$6.00**
- Bartlett.** Most popular all-purpose Pear. Large golden yellow fruit with pale blush. Excellent flavor. August–September.
- Beurre Bosc.** Large, deep yellow overspread with russet. Unsurpassed in quality and flavor. White fleshed. September.
- Clapp's Favorite.** Resembles Bartlett—large yellow fruit with brown flecks. Ripens a week or two earlier than Bartlett in August.
- Flemish Beauty.** Fine large, sweet juicy fruit. Strong grower and good bearer. September–October.
- Seckle.** One of the most delicious and ever-popular varieties. Small, russet brown Pears, ripening in October. Bears abundantly.
- Sheldon.** Large, round, russet and red Pears of first quality. Delicious. October.

APRICOT

- Moorpark.** Large, round fruit. Orange with red cheek. Rich flavored, juicy flesh.
- 2 yr., 11/16 in. caliper.....\$2.00

Espalier Trees

Unique for Their Beauty, Utility and Delicious Fruit

Beautify your home with an orchard growing on vines. Fruit trees grow in artistic, vine-like patterns against any wall, trellis or fence. They yield an abundance of delicious fruit that is often larger and richer than fruit from regular trees. Developed in Switzerland where garden space is limited, these unique trees are now available in America and add a distinctive touch of beauty to any home or garden.

These genuine Espalier Fruit Trees are propagated from true dwarf roots and scions which limit their size and growth. They require no more care than a small shrub or climbing Rose. Many of these 7-year-old trees have a spread of 10 feet or more and up to 7 feet high. All are dug with a generous ball of earth and for this reason no shipping orders can be taken. Delivered anywhere in Westchester County.

Not only are there many sizes and styles, but many varieties of Apples and Pears. For this Spring planting only, they are priced from **\$12.50 to \$25.00** each.

PLUMS

- Selected First-Class Trees, 2 years old, 11/16 inch caliper, \$2.25 each, 3 for \$6.00**
- Abundance.** Large fruit, amber turning to red. Very tender, sweet and juicy—good for canning. Early August.
- Burbank.** Large, cherry-red Plum ripening about mid-August. Hardy, good producer.
- Stanley.** Large, deep bluish-purple Prune with excellent sweet flavor. Best for commercial or home use. Midseason, about September.

DWARF FRUITS

Dwarf Fruits are very scarce and we regret we can offer only a very limited supply this year. These are on Malling root stocks and will remain small and bear younger than standard types.

- APPLES: Baldwin, Cortland, McIntosh, Northern Spy, Delicious.**
- 2 yr., 9/16 inch caliper.....\$3.75 each

“Off-Season” Work—IN THE NURSERY

Hand cultivating in off-season work of cleaning up the nursery.

Powers Taylor, shown here cultivating, is experienced in nursery operations and is now studying the theoretical aspects of nursery work at Cornell University.

MANY people believe that nurseries are very busy in the Spring, somewhat busy in the Fall and in a sort of dormancy for the remaining months. If that were so, nursery stock would be far from the sturdy material you receive.

As soon as the Spring planting rush abates, all attention is turned to *cultivating and weeding*. To combat this time-consuming chore scientifically we have done much experimental work with 2-4-D for weed control. Evergreen blocks so treated show effective results. 2-4-D applied in the Fall discourages Spring weed growth sufficiently so that cultivating can be delayed until after the Spring rush. The great savings in cultivating costs are reflected in lower prices of plant materials.

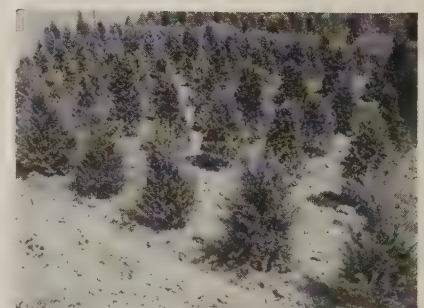

By *shearing* our plants, we keep them growing full, bushy and symmetrical rather than allowing them to expend their strength in tall, spindly growth.

Spraying makes Rosedale stock disease-resistant and free from pests. State and government inspectors have for many years complimented us on the clean, healthy stock we offer.

Only by *propagating* nursery material—making our own cuttings of such things as Honeysuckle, Pachysandra, etc.—can we offer you such superior, well-rooted, healthy plants at only average rates.

Vitally important is the *transplanting* of nursery stock for proper root development. Rosedale has always maintained that the most important part of the tree is its root system—more important than the top. The ideal quality is a proper balance between the two and for this we strive. When replanting, plants are widely spaced to encourage free, unrestricted growth. In the old block, holes are filled in, the block is cover-cropped and turned under for fertilization. It is then ready for replanting with young stock.

While the first application of fertilizer is made in early Spring, further *fertilizing* is done after transplanting. This fertilizing program makes a double contribution to the customers. Not only does sturdier stock result but the fertilizers for sale at Rosedale are first used in the nurseries. In this way we can judge personally the effectiveness of the fertilizers and the accuracy of the manufacturer's directions.

A block of *Taxus capitata* showing the well-spaced transplanted stock treated with 2-4-D for weed control. Absence of weeds allows fullest development of low branches.

Proper shearing requires training and skill to avoid plant mutilation.

SMALL FRUITS

BLACKBERRIES

Alfred. The Mammoth Blackberry. For the home garden, Alfred is the ideal Blackberry. Tremendously large berries from 1½ to 1¾ inches long, practically free from seeds and extremely juicy.
Heavy, 2 yr. transplants
25c. each, \$2.50 per doz.

BLUEBERRIES

New Cultivated Kinds Producing Giant Berries

Cultivated Blueberries are one of the most satisfactory fruits for a wide variety of conditions. We offer large stocks of ready-to-bear plants now four years old set with fruit buds at **new low prices.**

No spraying or difficult care is necessary. Plant with plenty of peat moss or humus in full sun or partial shade, and mulch. Blueberries are excellent for freezing.

The period of ripening covers several weeks. Varieties available are:

Concord, Midseason	Rancocas, Midseason
Jersey, Early	Rubel, Early
Pemberton, Midseason	Stanley, Late

All varieties now offered—bearing-age plants
3 for \$5.50, 6 for \$10.00, 12 for \$16.00

Each order will contain 3 or more varieties for cross-pollination.

BOYSENBERRIES

A triple cross of Loganberries, Blackberries and Raspberries produced this unusual berry. They are tremendous in size, very prolific in bearing and produce a berry of highest quality. Our plants will bear quickly.

2 yr. transplants. .35c. each, \$3.50 per doz.

CURRANTS

New Red Lake. Finest of all Red Currants. The berry is unusually large in size and superior in quality. The clusters are long and filled out to the top. Heavy yields.
2 year. .45c. each, \$4.00 per doz.

No. 863

STATE OF NEW YORK

DEPARTMENT OF AGRICULTURE AND MARKETS

C. CHESTER DU MOND, Commissioner

CERTIFICATE OF INSPECTION OF NURSERY STOCK

THIS IS TO CERTIFY that the nursery stock of **ROSEDALE NURSERIES** of EAST VIEW, County of WESTCHESTER, State of New York, has been duly examined in compliance with the Agriculture and Markets Law, and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until October 1, 1948, unless revoked before that date.

Dated Albany, N. Y., Sept. 2, 1947

C. CHESTER DU MOND,

Commissioner

A. B. BUCHHOLZ,

Director, Bureau Plant Industry

STATE, ALBANY, N. Y.

We attach copy of our certificate on all our shipments. Look for it. It is your guarantee backed by our State Department of Agriculture.

GOOSEBERRIES

Poorman. A red Gooseberry of good quality. Prolific grower of medium size. Midseason.
2 yr. .45c. each, \$4.00 per doz.

HARDY GRAPES

Caco. Our finest Grape. Wine red with sweet, delicious flavor. Large berries earlier than Concord.

2 year. .75c. each

Concord. Most successful in this section. Blue-black. Mid-September.

2 year. .50c. each

5 to 6 ft., 4-yr.-old Bearing Age. \$2.00 each

Delaware. Sweet, red vinous. Late September.

2 year. .50c. each

Niagara. Pale green, sweet, ripens with Concord, about mid-September.

2 year. .50c. each

4 to 5 ft., 4-yr.-old Bearing Age. \$2.00 each

Portland. A newer white Grape and one of the best for this section. Very early with a delicious flavor. About late August.

2 year. .50c. each

Large, 4-year-old, ready-to-bear Grape

Vines available in several varieties—

5 to 6 ft., \$2.00 each

RASPBERRIES

Indian Summer. Red EVERBEARING. A grand new variety produced at Geneva Experiment Station. Produces a crop in mid-June and then again in early September until freezing weather. Vigorous. Hardy at Geneva.
2 yr. Transplants. .40c. each, \$3.50 per doz.

Marcy. Red. Considered by many as the finest red Raspberry yet introduced. The fruit is very large, firm and of high quality. The canes are strong, thrifty and hardy. Introduced by New York State Agricultural Experiment Station. Late June.

2 yr. Transplants. .35c. each, \$3.00 per doz.

Newburgh. The world's finest Red Raspberry. Newburgh leads the field of Red Raspberry varieties in its desirable fruiting characteristics and productivity, but it has also proved to be practically immune to mosaic, the most dreaded Raspberry disease. Large red berry holds its size for a long season, has a fine, mild flavor, and the berries do not crumble. Early ripening, about late June. Extremely hardy.
2 yr. Transplants. .25c. each, \$2.50 per doz.

Taylor. A new Red Raspberry. Plants are vigorous, hardy, and productive. Long, conical shape, firm, thick flesh. Fairly early, about late June.

2 yr. Transplants. .35c. each, \$3.00 per doz.

Cumberland. Standard mid-season Blackcap, ripening about late June. Most widely planted variety grown for market and home use. Appearance and quality of fruit is superior.
2 yr. Transplants. .30c. each, \$3.00 per doz.

We recommend for a family of four the following number of plants—depending, of course, on your appetite for fruit:

Blackberries.	1 dozen plants
Blueberries.	1 dozen plants
Currants.	6 plants
Gooseberries.	6 plants
Grapes.	4 to 10 plants
Red Raspberries.	1 to 2 dozen plants
Black Raspberries.	1 dozen plants

Root systems of Three-Year-Old Apple Trees showing, left to right, Good root growth (and better general plant development) from being twice transplanted; once transplanted; not transplanted.

Left
Berkley Taylor, Assistant Superintendent, supervises a crew transplanting Taxus for root and top development.

“Off-Season”—CUSTOMER SERVICE

OF DIRECT service to customers during the off-season months of July, August, December, January and February, Rosedale offers several services and at reduced rates.

Pruning your shrubs and trees correctly encourages full, bushy growth and prevents development of thin, straggly plants. Pruning does not necessarily mean shearing and our men are trained to encourage the natural development rather than the closely clipped cones, pyramids, etc. so often seen. To neglect pruning or to cut without knowing what should be cut may result in loss of blooms and fruit or may even cause additional expense by necessitating replacements. Experience and knowledge combine to produce the best results.

Our **Landclearing** crews are thoroughly trained in clearing out underbrush and overgrown areas. Anyone can come in with a knife and reduce the amount of plant growth indiscriminately, but it takes skilled men with a knowledge of plants to know what can best be eliminated. We are particularly proud of the tremendous job of restoring the Old Dutch Church section of Sleepy Hollow Cemetery of Washington Irving fame.

Transplanting large trees is another important Winter service. During this period, the trees are completely dormant and therefore can be more safely moved without harmful effect.

In conjunction with the pruning land clearing and tree-moving, frequently some renovation is needed in the landscape pattern. Whether remodeling your planting or starting afresh, we suggest consulting our **Landscape Department.** Naturally, off-season conferences permit our Landscape architect far more time to work with you on your planting problems. Early consultations allow you and us to have everything well in hand by the time planting conditions are favorable.

Tucker, Armin and Ludwig making Honey-suckle cuttings. We propagate large quantities of Pachysandra—a Rosedale specialty—in the same manner.

Right
The Old Dutch Church section of Sleepy Hollow Cemetery after restoration by Rosedale Nurseries.

O. M. SCOTT has grown and packed grass seed since 1870 and on our 50th Anniversary we are proud to offer again this seed so justly famous for its high germination and its freedom from weeds, and at greatly reduced prices this Spring. Have a velvety green Scott Lawn by using 10 lbs. Turf Builder and 4 to 6 lbs. Scotts Seed to each 1000 sq. ft. Both are quickly and economically applied with a Scott Spreader.

We suggest that you order prior to the planting season and have both fertilizer and seed on hand when Spring opens up. Prompt deliveries can be made and both seed and fertilizer may be applied before ground is completely thawed.

SCOTT'S LAWN SEED. For lawns in full sun, light shade. Triple cleaned, 99.91% weedfree seed.

1 lb.....	\$0.95	10 lbs.....	\$8.95
3 lbs.....	2.85	25 lbs.....	21.25
5 lbs.....	4.65	50 lbs.....	42.50
100 lbs.....			\$79.50

SCOTT'S for DENSE SHADE. For areas receiving practically no sunlight.

1 lb.....	\$0.95	25 lbs.....	\$21.25
3 lbs.....	2.85	50 lbs.....	42.50
5 lbs.....	4.65	100 lbs.....	79.50

SCOTT'S BENTGRASS. For a lawn like a golf putting green. Use 2 or 3 lbs. per 1000 sq. ft.

1 lb....	\$1.95
5 lbs..	9.35

SCOTT'S CLOVER

For thickening lawns on poor soil. Not included in Scott mixtures because it is better to sow alone. Small box (for 2500 square feet)

85c.
Large box (for 5000 square feet)
\$1.65

SCOTT SPREADERS. Provide easy, economical way of applying all Scott products.

ROSEDALE PLANT FOODS STIMULATE GROWTH

3 AGRICO Fertilizers for Better Lawns and Gardens

Each of these three special-purpose AGRICO Fertilizers is made to do its own job and do it better than any all-purpose fertilizer could possibly do. Yet Agrico costs no more . . . is more economical to use . . . gives you more value, per pound and per dollar.

Agrico for Lawns, Trees and Shrubs

If you have a good lawn, keep it that way by feeding it with AGRICO every Spring and Fall. Use Agrico in rebuilding lawns. Also feed your trees and shrubs. Use 30 lbs. per 1000 square feet.

5 lbs.....	\$0.45	25 lbs.....	\$1.50
10 lbs.....	.80	50 lbs.....	2.50
100 lbs.....	\$4.50		

Agrico for Gardens

Use this special-purpose AGRICO for flowers of greater health and beauty—and for larger yields of vegetables, richer in minerals and vitamins. Use 40 lbs. per 1000 square feet.

5 lbs.....	\$0.45	25 lbs.....	\$1.50
10 lbs.....	.80	50 lbs.....	2.25
100 lbs.....	\$4.00		

Agrico for Broadleaf Evergreens

Rhododendrons, Azaleas and other acid-loving plants must be fed with care. This AGRICO provides all needed plant foods and also acidifies the soil essential for best results. Use approximately 1½ lbs. per 1000 running feet.

10 lbs... \$1.00	50 lbs... \$3.25
25 lbs... 2.00	100 lbs... 5.25

COMPLETE INSTRUCTIONS PRINTED ON EVERY BAG

AGRINITE

An all organic fertilizer; 3¼% nitrogen, 100% organic. Use at rate of 4 lbs. per 100 square feet. Agrinite is not an animal manure or sewage by-product—it is clean, dry and grease-free, with no offensive odor. It is easy to apply by hand or by spreader, being carefully ground and screened to assure a free-flowing product. Whenever you need all-organic nitrogen, use Agrinite and see for yourself how efficient and economical it really is.

50 lbs.....\$2.75 | 100 lbs.....\$5.00

DRICONURE

Organic fertilizer made up of three-fourths dehydrated poultry manure and one-fourth peat moss, packed in tight paper bags for easy storage. Easy to handle and may be used on lawns, gardens both vegetable and flowers, and shrubs and evergreens. We highly recommend it as economical and of lasting value if used liberally. Cannot burn if carelessly applied.

50 lb. bag.....\$2.00

AGRI-LIME

A finely ground limestone for lawns, gardens and flower beds.

50 lbs.....\$0.90 | 100 lbs.....\$1.50 | 1 ton.....\$18.00

PEAT MOSS

Canadian Horticultural Peat, packed in old-fashioned large compressed bales. Use liberally in preparing beds for Broadleaved Evergreens, Blueberries or acid-loving trees. Fine neat mulch for anything. A deep mulch retards weed growth.

Large bale.....\$5.00

NATURAL HUMUS

A screened Natural Humus full of plant food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting where top soil is poor. Sold in bulk.

Per cubic yard...\$9.50—Packed in sacks approximately 80 lbs. \$1.50

BONEMEAL, SHEEP MANURE, ALUMINUM SULPHATE and SUPERPHOSPHATE available at current prices. Our Fertilizer Department will be glad to advise you.

General Information

Our Guarantee:

We guarantee all nursery stock to be in first-class condition when delivered to the customer. Please advise us promptly of any damage or loss in handling.

We guarantee our nursery stock to be true to name and use every care to properly label as sold. Should any prove untrue we agree to replace or refund purchase price.

Provided account is paid in accordance with agreed upon terms and plants have received reasonable care, we will replace at one-half price of the plants, any woody plants furnished which if planted in the Spring fail to survive through the Summer, or if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above plus the cost of planting.

Mail Orders:

While ours is primarily a local business within our truck delivery area we can handle Parcel Post, Express and Freight deliveries of all plants except those requiring a ball of earth.

No Mail Orders can be accepted for less than \$5.00.

No C.O.D. shipments will be made unless order is accompanied by a 25% deposit.

All shipping charges must be borne by the customer except where otherwise noted.

Please be sure to give correct shipping address and instructions.

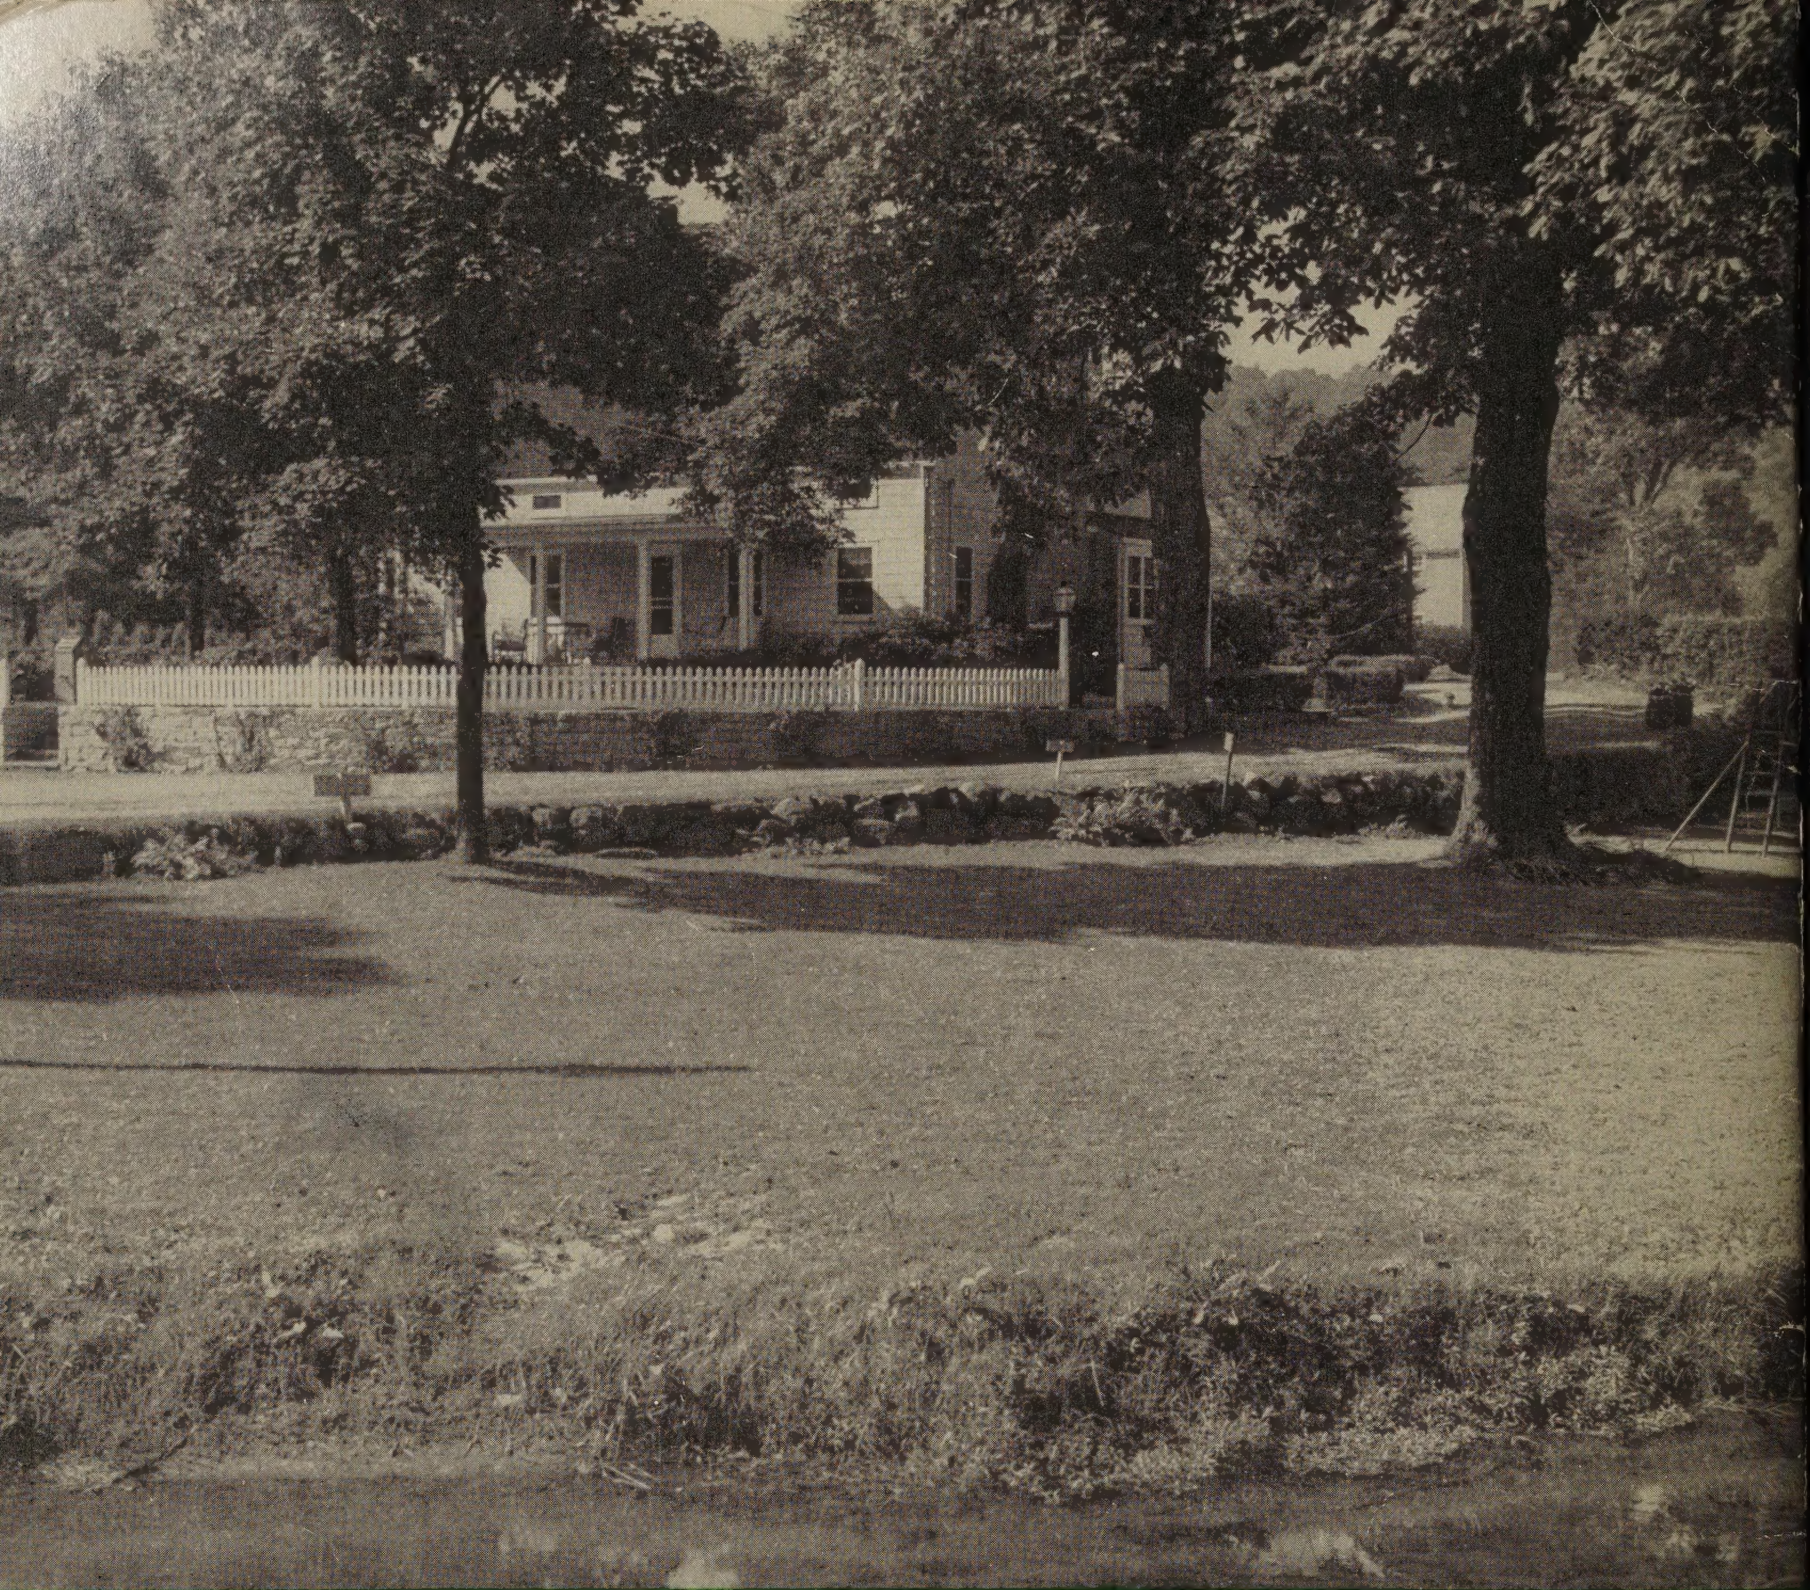

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value. The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times.

Please address all mail orders and communications to our Post Office Address, Eastview, N. Y.
